Dear Sir,

Thank You for Your warm answer !
 We send to You correct Recommendations.
 Sincerely
 All Yours
 Alexander & Valery
 Vasiljev
 From Odessa-Gothey

RECOMMENDATION to AMERICAN BIOGRAPHICAL INSTITUTE and MARQUIS WHO 'S WHO

1. Dr. Prof. Sharon Raver-Lampman, Old Dominion University, Professor of Special Education, Norfolk, VA, USA 23529-0136 E-mail: sraverla@odu.edu

For Report "Teaching students with disabilities in Integrated University Classes in Ukraine" (University "Ukraine", Kiev, 2005 – pp.125-26 on the YI International Conference). p.126 "...University "Ukraine" has written two book lets that may be helpful to other universities. An Instructors' Handbook and a Students' Handbook list recommended accommodations, give general information about different disabilities, present ways to improve communication between students and instructors, and provide forms. By doing these things, Ukrainian universities have a chance of bringing Ukraine closer to the egalitation country it is capable of becoming. (*Booklets may be obtained from Dr. Kateryna Kolchenko at kolchenko@vmurol.com.ua)... Vikos Y. (2005) Disabled facing outdated attitudes. Kyiv Post, 12 (22), 3. Whyte S. & Ingstad B. (1995) Disability and Culture: An Overview, Berkeley, CA: University of Berkeley Press."

2. Eva Lindgen-Hard Barbro Linton, SE 13681 Haninge.

E: receptionen@centrumvux.haninge.se
 For Report "Education for students with Learning disabilities at centrumvux" (University "Ukraine", Kiev, 2005 – pp.44-47 on the YI International Conference). p.47 "We offer education to intellectually handicapped students, students with Aspberger Syndrome, and students with acquired brain damage at Centrumvux. Since autumn 2003 we also welcome intellectually handicapped students that are deaf or hard of hearing. The education takes the form of training school and basic adult education. The teaching is related to individual performance and a great number of methods are used to achieve the goals".

3. Ms Mary Konya Weishaar, USA

For Report "How Law in the United States Provides Support for students with disabilities" (University "Ukraine", Kiev, 2005 – pp.390-394 on the YI International Conference). p.392 "How NCLB and IDEA can be Applied to UNIVERSITY. The basic philosophies behind these two may be applied to university students with disabilities. Following are several basic principles that could be used to apply the Laws ... 5) Appropriate Education and Individualized Education Program. Universities should document in writing all services needed for an individual student, including accommodations and adaptations. In addition, the student should be actively involved in determining services needed. The student should take the responsibility for sharing needed services with the professor. This document demonstrates the university commitment to the student and promotes self-advocacy on the part of the student... 9) Right to Educational Achievement. All university students with disabilities have a right to achieve at the university. Professors should be well-prepared and willing to assist students with disabilities. Professors should be well-prepared in the use of research-supported teaching practices".

Dear Dr. Vasiljev:

Thank you for your e-mail messages that I received this morning. I thank you for your outstanding recommendations of noted persons in the Ukraine. Your willingness to point out exceptional achievement helps us to recognize worthy achievement in our titles. Please keep in mind that we do not make first contact with any individuals by e-mail. We prefer, instead, to contact a person by post with information about the ABI and a brochure to complete.

My best wishes for continued success in all you endeavor.

With kind regards,

Carol A. Mitchell

**RECOMMENDATIONS INTO THE RESEARCH COUNCIL OF INTERNATIONAL BIOGRAPHICAL
CENTER IN CAMBRIDGE (ENGLAND)**

1. Petro Mikhaylovich Talanchuk (on 1 July, 1938), the Honored Scientist and Technologist of the Ukraine, the doctor of technical sciences, professor, the academician of the Academy of Pedagogical sciences of the Ukraine (since 1992). 250 scientific it is working, in such cases of 50 patented inventions. President of the Open International University of the Development of Man "Ukraine". We have recommended him for the fundamental work "formation and the Euro-transformation of Ukrainian society" (materials for the entrance lecture and the meditations to students). - Kiev, university "Ukraine", 2004 - s.yashch. let us give only several fragments of s.' "allotted from nature by sharp, analytical mind, Mazepa; was also obtained bright, to the period, formation, beginning - in Kiev Kollegiume, then - in the Warsaw Jesuit school. Heard also the course of lectures on the questions, which it interested, at the best universities of West Europe. It served in hetmen - Peter Doroshenko, Ivan Sagaydachny, and already into 47 years itself was selected by the hetman of the left-bank Ukraine. At that time not simple it was to reach such heights. Not wealth, not connections would not help Mazepa, if not its high erudition. It had, as emphasized Jean-Jacques Rousseau, thin and tender mind, it knew several European languages, and also "very well" Tatar. In his to circle was known as partial bibliophile, interesting and attractive collocutor. The acquired knowledge and the quality of nature placed Mazepu, speaking in contemporary terminology, in the number of talented diplomats. And nevertheless its role in international the events of those days was significant and sign. Peter 1 carried out sentence to this famous personality; therefore Ivan mazepa forced was to emigrate it died beyond the limits of the native Ukraine, and moral - Soviet historiography; the traitor of its people and Russia. I think that there is no need for proving, that no, so-called treacherous activity Of mazepu would undergo such persecutions from the side of Soviet historians, if it would concern only Ukrainian people. But, since its activity undermined the abutments of tsarist Moskovshchiny, under the rule of which was located the Ukraine, and then also by "united and indivisible", there was mercy to it not. Ivan Mazepa became persona of nongrata almost to 300 years! None of the political and public workers was favored this "honor". Why? Because Mazepa was not only the patriot of the Ukraine, but also by foresighted statesman (builder). He wanted to see the Ukraine free from the Moscow servitude. And this was the main reason for hatred from the side of all, as has already been spoken authorities (ss.'67"). It is desirable to add that Ivan Mazepa first skillfully actually appeared for the European integration of the Ukraine, relying on ethnic Ukrainian army - Cossack - it was finished. It connected up itself the wisdom of the hereditary political elite of the Ukraine and the strategic selection of Pan-European values for the Ukrainian people, which preserved its Gothic- Cossack army up to the 20th it was annual XX of century, that desperately quieted the Soviet historiography. But it did not come out - it was impossible to hide history, great history from the great European people (see www.cic-wsc.org Doc. 65,66 the "Goths in Europe").

S.8 "with Ivan mazepu's activity crosses path in life and one additional salient personality - holy Dmitriy Rostovskogo (in to Daniel tuptal's peace). The son of the Cossack's Sotnik of the Sava Tuptala accepted monastic vows and lived several years in the different Ukrainian and Belorussian monastery, he was father superior in by Nikolayevsk monastery (Buturline), but then it forewent the cloister authority and it completely dedicated itself to church- literary labor. Work "life of the saints", it almost twenty-year selfless labor, became the most dear book of Ukrainian people. Being the highly educated person, he understood and sympathized to the events, which were turned in the Ukraine, and after death P.Doroshenko built on the spot of its burial the chapel, about which wrote in one of his poems Taras Shevchenko. Mutual understanding united Daniel Tuptala with Ivan mazepoy, whose defeat, as historians testify, became the reason for its premature death, which it, and many other outstanding workers of Ukrainian people, met beyond the limits of the fatherland. On the order of the same of Peter 1 Daniel wanted to send into Siberia, vysvyativ in metropolitan toboł'skiy. But because of its disease they send to the department of metropolitan rostovskiy. Therefore, in 1701 it forever leaves the Ukraine, and in eight years it leaves this light on the elbows with the prayer on the mouths. It can be, Daniel Tuptalo it did pray for the Ukraine? ... ". It is desirable to add that Daniel samootverzhenno saved Cossacks - finished from the spiritual savageness on to the Don near Tanaisa, we felt the results of its spiritual exploit in 2001 in Taganrog and to the Rostov-on- Don.

s.9 "Gogol greatly wanted to move to Kiev, he called there Maksimovich and he wrote in regard to this: however, "fell in love herself you with this old, thick ram Moscow, from which, besides cabbage soups and obscenity, nothing you will hear". Or: "throw, in fact, Katsapiyu yes go to Get'mavshchinu...". Well did not love Gogol Russia so that even Ukrainian songs he wanted to publish in Kiev, and not in Moscow. But meanwhile in Nikolai gogol's notes we find entirely frank "kramolu" about the disconnection of the Ukraine from Russia and the proclamation of independence ".

s.11 "Ukrainian roots, Ukrainian nature, Ukrainian soul, Ukrainian patriotism... They seethed in blood and flesh of Vladimir Mayakovskiy, Mikhail Iermontov, Mikhail dragomanov (descendant of the Cossack of Chief Petty Officer)... Mikhail Ostrogradskiy, Mikhail yangelya... Vladimir filatova... ". Is desirable to

add the name of Honored Scientist and Technologist, professor, doctor of the technical sciences Of Dobrovol'skogo, third in the world detal'shchika after Craft and American Tereshchenko, which Odessa Polytechnic Institute as its rector, in spite of disagreement with a number of the points of the regulations OF CPSU - COMMUNIST PARTY OF THE SOVIET UNION (!!), nevertheless in 1951 it accepted into the party (then this it was necessarily). Only for THE USSR it was precedent in the 50's!

s.25 "The History of the Ukraine... It actually cannot be read without bromine... If we look to the contemporary state of the matters in the economy or, at least in the state policy, then impression is created by times, that in XYII - XYIII of substances the Ukraine nearer stood to Europe than now".

2. Eva Lindgen-Hard Barbro Linton, SE 13681 Haninge.

E: receptionen@centrumvux.haninge.se. For Report "Education for students with Learning disabilities at centrumvux"(University "Ukraine", Kiev, 2005 – pp.44-47 on the YI International Conference).

p.47 "We offer education to intellectually handicapped students, students with Asperger Syndrome, and students with acquired brain damage at Centrumvux. Since autumn 2003 we also welcome intellectually handicapped students that are deaf or hard of hearing. The education takes the form of training school and basic adult education. The teaching is related to individual performance and a great number of methods are used to achieve the goals".

3. Ms Mary Konya Weishaar, USA

For Report "How Law in the United States Provides Support for students with disabilities" (University "Ukraine", Kiev, 2005 – pp.390-394 on the YI International Conference).

p.392 "How NCLB and IDEA can be Applied to UNIVERSITY. The basic philosophies behind these two may be applied to university students with disabilities. Following are several basic principles that could be used to apply the Laws ... 5) Appropriate Education and Individualized Education Program.

Universities should document in writing all services needed for an individual student, including accommodations and adaptations. In addition, the student should be actively involved in determining services needed. The student should take the responsibility for sharing needed services with the professor. This document demonstrates the university commitment to the student and promotes self-advocacy on the part of the student... 9) Right to Educational Achievement. All university students with disabilities have a right to achieve at the university. Professors should be well-prepared and willing to assist students with disabilities. Professors should be well-prepared in the use of research-supported teaching practices".
