

**General secretary of the United Nations  
Kofy Annan**

**General director  
IAEA Mohammad El-Baradei**

**World-wide organization of public health services (WHO)**

**Food and agricultural organization of the United Nations (FAO)**

**To the executive director of the Program of the United Nations  
on an  
environment (UNEP) Klaus Topfer**

**To the legal adviser of the United Nations Hans Korrely**

Civil International Committee completely divides concern of Advice of Control IAEAs and its General director Mohammad El-Baradei about accepted Iran for a long time violations (disturbance) of the Agreement

about non-proliferation of nuclear weapons, participant of which one Iran is (in particular personally), speech goes about Non-presentation by Iran of the information about attempts to make enriched uranium, which one potentially can be used of a component For production of automatic weapon).

It is severe trouble the data of the report on fulfilment

The integrated program of the United Nations on AIDS (UNEDS), which one

the World-wide organization of public health services (WHO) has published in the new report on development

Global epidemic of AIDS in 2003 dated by World-wide day

Scrambling with AIDS (it was marked on December 1). On data of the report in

2003 5 million. The person has caught a virus of an immunodeficiency

and 3 million. Has died as a result of global epidemic of AIDS. It triggers the concern for all honest people on the Earth.

We consider (count), that a corollary of such immorality of the chiefs of a number (series) of countries is at that, that the global level of a starvation again is on rise (ascent) after some reduction (abbreviation) observed in the beginning 1990 years (the annual report " Food instability In a world in 2003 "). Today almost 850 million. The person in a world suffer affliction from undernourishment and at such development of events it will be impossible to 2015 to reduce twice number of the people which are suffering affliction from undernourishment (the purpose put

on World-wide occurring top-level).

Probably, process of ratification Second therefore was slowed

The padding minutes to the Convention on an inhibitory action or limitation of application of concrete kinds (views) of customary weapon (the minutes ratified 73 states). On this background less considerable problem can show, which one was raised by (with) the Executive director of the Program of the United Nations on an environment (UNEP) Klaus Topfner, but it not so And his (its) report on conference organized under aegis UNEP and UNESCO, in which one have participation representatives 23 countries of Africa and Southeast Asia, is extremely well-timed. All of us are obliged to salvage a gene pool of a PLANET. Analyzing (analysing) all major events of event, which one shock mankind, the management (manual) of Civil International Committee in next time is convinced of a development in practically in each considerable event of the Law of PRESERVATION of a LABOUR and Law NO-DESTROY of an INTELLIGENTLY - SPIRITUAL LABOUR. Their implementation has resulted world community in the Convention of the United Nations against corruption, which one should be signed on international conference in Merida (Mexico) of December 9-11. And we completely agree with the legal adviser of the United Nations Hans Korrelly, that this Convention is first mandatory for fulfilment by the document in the field of scrambling with corruption. But what large creative activity of international institutes has preceded it of the Convention! Without the Convention against transnational organized crime (from September 29) - such document would be extremely difficult (complex) to accept. Step by step world community decides arising problems. And in spite of the fact that on past week in main cities of seven provinces of Afghanistan within the framework of preparation for national selection (are intended the next year) men while registration only 10 000 persons (third which one live at a province Bamia), but it only first and reassuring step. We very much would like to make the contribution to a positive development of events in a World. Therefore we have offered Supreme Advice of Ukraine a number (series) of the initiatives. And is simultaneous, thinking indispensable to discuss the initiative on realization of All Ukrainian a Congress of a Spiritual Unification of all peoples and ethnic groups inhabiting Ukraine including of representatives of the Ukrainian diaspores of short-range and distant

foreign countries. The same initiative we offer also to Russian Federation concerning the Azov Locale, that the Red data book of Europe

" will be by an actual step to fulfilment of the program ".

It is offered to conduct all this first steps to realization of our main purpose - organization of the First World-wide Congresses of a Spiritual Unification in New York, which one per 2005-2005 years (see

INTERNET - PAGE CIC).

We ask you to state the judgement concerning our initiatives and we with pleasure we shall consider all concrete your proposals.

*Valery Vasiljev, Chairman of Civil International Committee,  
The president - chairman of the Azov Department of AES&E*
