

The REFERENCE (project)

WE ASK TO SUPPORT IDEA of REALIZATION of a WORLD CONGRESS of a SPIRITUAL UNIFICATION in NEW YORK before a FORUM in SOUTH-AFRICAN REPUBLIC in 2002. The events on September 11, 2001 have shaken the WORLD. The people of all continents are extremely concerned with the FUTURE of our CIVILIZATION. The outstanding people of the WORLD are making all possible to find ways of the decision of the become aggravated contradictions. Ioann Pavel SECOND has visited Ukraine, Cuba both Kazakhstan. The Center of His Name will be in USA. And our constant appeals in 1999, in 2000 and in 2001 about realization of a WORLD FORUM SPIRITUAL after September 11, 2001 are heard by Vatican. The Daddy Roman calls the leaders conducting spiritual Churches to be going in Italy for discussion of problems arising because of an aggravation of the terrorist actions. But it only first step. We are sure, that is necessary to lean against positive experience of our CIVILIZATION. In - first, on experience of Byzantium and Rome, which adhered more to than two centuries of principles IKONOMIA (prompting of the people to become higher than disagreements, for the sake of preservation of on atmosphere of mutual good will). And due this avoided of the war conflicts. In - second, on experience of realization of the joint international actions of the spiritual leaders and scientists. With realization of there Forums is reached (achieved) that of graf Arnold fon Kejslering has named: "by a New opportunity to carry out what newer was reached by our CIVILIZATION - association Spiritual and Science. And before Making today there in no task of creation of new religion - "it is impossible equally to think, since there will be no ideas"(1992). There is a task on the basis of a recognition of necessity "good life of the society" and the method of revival of principles of IKONOMIA in international practice of the chiefs of the states of the WORLD to reach "benevolent good neighbourhood". Therefore we call all people on all continents to support idea of realization WORLD CONGRESS of SPIRITUAL UNIFICATION in NEW YORK before a FORUM in South - African Republic in 2002. Till September 11, 2001 the idea of realization of a WORLD CONGRESS of a SPIRITUAL UNIFICATION in New York unanimously would not be maintained a public of the WORLD. But after the occurred tragedy and facts itself of high moral's behaviour of the inhabitants New York (6 hours during in New York the doctors of hospital of New York rescued life of the journalist from Russia - amazing fact !) nobody will express against realization of a WORLD CONGRESS of a SPIRITUAL UNIFICATION in NEW YORK. America has brought an irreplaceable and huge victim on an ALTAR of the Future Mankind. Therefore today we call you to support idea of realization a WORLD CONGRESS of a SPIRITUAL UNIFICATION in NEW YORK. World Congress of Spiritual Unification in New York before a Forum in 2002 in South-African Republic. We consider, that for "of Revival IKONOMIA - as it is necessary to organize Bases without the conflicts of Development of a Civilization", work of Congress must will be on the following directions: 1. Rome and Byzantium - positive experience of overcoming is sharp of disputed interaction in a modern civilization. 2. Theology - Science - Ikonomia (intellectual spiritual synthesis). 3. Problem questions of preparation of World Public Opinion to First's Global Revolutions - Revolution of Efficiency. With sincere HOPE Committee on preparation of opinion of a WORLD public for realization of a WORLD CONGRESS of a SPIRITUAL UNIFICATION in New York. We ask to direct your Letters to the General Secretary UN. (UN, New York, NY 10021, USA) P.S. President of European Committee
To Deputies of European of Parliament

The additional materials to
declaration from 28.06.2002
/Declaration was sent from Warsaw, Poland /

Dear sir President!

Dear Deputies of European of Parliament!

Direct to You the additional materials to questions about rendering of moral and sponsor's support to International Committee on preparation of world(global) public opinion to execution of World Congress of Spiritual Unify in New York.

I address Your attention on that on ITI or scientific-practical Conference of teachers and students in Taganrog's Institute of management and economy the initiative of execution of World Congress of Spiritual Unify in New York was discussed not only by teachers, but also students. They have liked the opportunity of execution of particular share, directed on achievement balanced of Intellectual-Spiritual Growth on all continents. We have published this report in Report N10 Azov Department of AES&E, which to You direct.

We pay Your attention on that High Moral scientists, which we recommend to Cambridge University for inclusion in edition. These the Great People has helped us and without them moral support today we could not leave with initiative of preparation to execution of World Congress of Spiritual Unify in New York (21 Persons).

We want, that You of us is correct have realized. We have created the International Committee on preparation of world (global) public opinion to execution of World Congress of Spiritual Unify in New York not to receive the financing from funds European Committee or from Sponsors. We have seen sincere Desire of Persons of World to rendering of positive's effect on modern situation in intellectual-spiritual sphere. Because we go on step rare for East Europe - on creation of Civil International Committee.

We from firsts steps of creation of International Committee on preparation of world(global) public opinion to execution of World

- 3 -

Congress of Spiritual Unify in New York feeling on self the pressure of forces, which was against our steps. These forces are not considered with people. On October 30, 2002 mayor Taganroga S. Shilo have killed. This Person has created in Taganroge the good atmosphere. Only in this atmosphere could born the our initiative - Civil International Committee, which have had time (!) heard in World.

And no question that we remained in chapter of this Civil International Committee. So develops the situation (we not receive letters and the means) is not present, that we must has to transmit the active work on Civil International Committee to members from countries of Western Europe. But main - these Members is already present. They was necessary to be supported.

To you the serious decision (the authority of civil international committee to support the authority EUROPEAN Union) Can be difficult accept, but to help one of Deputies of European of Parliament or Members of Civil International Committee - it is possible and it is necessary.

Not all Outstanding People of World, which have supported the idea of execution of World Congress of Spiritual Unify in New York, have agreed to work in International Civil Committee on on to preparation of world(global) public opinion to execution of World Congress of Spiritual Unify in New York (I am very good of them understand). On it at each has the reasons, but should not to be overlooked that feel, with which the many Outstanding People of World were related to this initiative. This sincerely have established by the most deep human qualities. Without these qualities the neither of civilization can not exist.

Therefore it should not to overlook about it to best FUTURE ONE by Clever and Great People. Only on such SINCERELY was possible to be constructed FUTURE OUR CHILDREN (for us it not the loud phrases, and the reality have understood).

I ask You to support our initiative.

With sincere respect,

Dr. Alexander Vasiljev

The representative Azov Department of AES E. in Western Europe and in America, vice-president of International Civil Committee on on to preparation of world(global) public opinion to execution of World Congress of Spiritual Unify in New York.

P.S. For many business people our work seems naive and no-interesting (it does not promise money). But without Great Day-dream to people to live it should not. The people, which have not the hope, not to create can not. For to write and to send from Warsaw this letter to us was came to collect all remaining means (travel from Mariupol to Warsaw for us very the large financial problem). But at which development of events we never do not sorry about this trip. Each in this life makes that he can. We have made the step and we hope, that it will be correct understanding.
