**Asunto:** RE: Save animals from suffering in deadly chocolate tests!

Dear Ingrid E. Newkirk  
Founder PeTA

Thank you for your message and confidence. We, the CIVIL INTERNATIONAL COMMITTEE (CIC) endorse his initiative and we believe that the animals, which are already in the human food chain, and they are slaughtered for our survival, should be excluded from the scientific experimentation bloody, in all scientific laboratories. You are right that the animal experimentation may be replaced by the creation of computer models working.

All Sincerely

The CIC

Dr Ernesto L. García

Dr Miroslav Demic

Dr Goutan Dutta

Dr Frank Lin Fei

Dr Pritviraj Chattopaddiay.

Mr Marina Tuzovscaya
