CIC
of Intellectual & Spiritual Unit

SENATOR MR BARACK OBAMA
Democratic National Committee
430 S. Capitol St. SE
Washington, DC 20003
U.S.A.

To the Winner in the selective company on a post of the President of the USA to Mr Obama

Dear Sir Barack Obama!

All of us members of Civil international Committee of the Intellectual and Spiritual Unity are sincerely glad to congratulate You on election on the most responsible in ours of a modern Civilization the POST - the President of the United States of America! Nations of the Wide World assign to you very much greater hopes. They see in You a symbol of real democracy which has managed to be kept in the USA and which gives in Your person hope to all workers to Mankind. We do not wish to oppose with heads and workers, people intellectual and physical work, by the way, the last remains in 1928 (an estimation of the doctor from Germany Fr. Kan) and it is not enough very little today (see Doc-405 www.cic-wsc.org). It is practically difficult to find In the modern World of workers of simply physical work among citizens of the states of the European Union. Should think all! And works - practically all layers of the population too should, that in industrially developed countries show both workers, and millionaires, and the professor, and Presidents. Theories of a conflict ness leave arsenals is perspective thinking political scientists and scientists. The world waits for integration approaches and deeply scientific Christians the proved world outlook concepts. No, not simply theological concepts, and scientific, but Christian values leaning the deepest understanding, on works of such thinkers as Hegel, Em. Kant, Peter Chaadaev, Ludwig Erkhhard, Valery Vasiljev, Vladimir Vernadsky, Adam Smith, Alfred Marshall. But unless all you will list! Scientists and thinkers who sincerely trusted by virtue of human reason and from high moral, Christian positions concerned to the service it is much more, than those which were proved with terror and stagnation. But, with the last all of us but, with the last all of us should combat in XXI Century. We shall combat this on pages of our electronic magazine, at conferences and seminars, and You should eradicate terrorist arrogance and aggressive nonsense of permissiveness from goals of irresponsible politicians.

At You exclusively a challenge and we shall sincerely help All of You to carry out forces it! But all of us we hope for a victory of reason and the responsibility, we shall pray therefore for that the Lord (GOD) granted to You and Your relatives of health and force for Your big and responsible work.

With sincere respect and hope,

Chairman of Civil international Committee,
doctor Ernesto Garcia ()*
Vice-chairman of Civil international Committee,
doctor Alexander Vasiljev-Muller
and
Memberships of Civil International Committee
