17.02.2008

THE OPEN LETTER of the AZOV (UKRAINIAN) DEPARTMENT  
ACADEMIES of ECONOMIC SCIENCES And ENTERPRISE of ACTIVITY

**THE RESPECTED CHIEFS of the UKRAINIAN STATE !**

**My reference to You is called by tendency to supply(ensure) more - less normal conditions of activity to the experts of top skills, which one have lingered over on Ukraine, or which one there is a chance to convince to remain to work in Ukraine.**

I shall describe a case, which one has taken place with me recently practically on boundary of Ukraine with European Union in small provincial city of Zakarpatye in Khust. All is known to You this Center of Zakarpatye more, probably, on activity of Augustine Voloshyn, First President of Zakarpatye Ukraine.

Since July, 2006 we with the father, academician of Academy of economic sciences of Ukraine Valery Alexandrovichem Vasiljev, worked in Carpathian Institute of business of University «Ukraine". Certainly, the creation of this Institute and maintenance of its activity can be estimated as a rare example Great Work in a higher school of Europe under a management of the really talented chief and present of humanitarian scientific Wasilia Mihajlovich Kozak (his substantiation of material's thought is already enough, that about him all and always remembered).

In October, 2007 kept to supervise over stand of economics and business already in loneliness (12.12.2006 the professor of Institute Valery Alexandrovichem Vasiljev has left from life). And suddenly new personnel manager of Institute (experience in staff on industrial firms of Zakarpatye region more than 15 years, therefore is understandable to whom actually is subject) Elena Semenovna Volkova to me speaks, that the region control of statistics does not receive the introduced information by Institute on the doctors of sciences, among which one and my surname. One professor as already was presented by state high school, and to me problems in connection with the diploma of the doctor of economic sciences produced in the Russian Federation. «If you will not present the Ukrainian diploma, we shall not pay to you wages» - speaks Elena Semenovna. For me this application was by full unexpectedness, since practically for last fourteen years a problem in such aspect angle nobody raised. The first thought was immediately to address in ME&S of Ukraine, but then has thought and has offered to Mrs. Volkova to bring though any document from region

control of statistics, in which one even in the recommendational schedule would be said about Ukrainian diploma. Even has compounded and has transmitted the project of this letter - «to the Rector of CIB U."Ukraine". We ask You pursuant to the statutory acts of Ukraine to promote Ukrainian diploma of the doctor of economic sciences Vasiljev Alexandr Valerievicha». Passes month and any letters no, and the information the control of statistics receives and that all is normally with wages. But only then Elena Semenovna Volkova brings some orders on a provision of pensions, in which one there is like this feral(natural), from my point of view, the discrimination, which one should push to absolutely waste Ukraine new protection of the diplomas recognized on the international treaties USSR (Russian Federation the assignee USSR) in 60 the States of a World.

It is doubtless, that Ukraine, as an independent state, is obliged to struggle behind the staff, for maintenance of activity of the scientists advices, but only is not formal, causing the people to search for activity outside country, and, certainly to not give definite forces specially to bring up this scrambling to the point of irrationality. Specially, it cannot be done in a humanitarian orb. Though all of us realize, that this "«nonsense" very much is expedient and, most likely, is artificially organized.

Apparently, that the formalistic approach to the doctors of sciences is at all heritage USSR, and something more ancient and feral. It is enough to recollect the main(basic) events of my certification, as expert of top skills in economics, and there are many problems to the one who gave illconditioned commands to Mrs. Elena Semenovna Volkovoj.

So September 3, 1990 the solution of scientific advice of Institute of an industrial economy Academy Sciences of Ukraine approved a subject of a doctoral work, and cand.techn.scis. Vasiljev A.V. was attached to a preparation for doctor's degree of institute on a speciality 08.00.05 «Economics, planning and organization of control of a national economy and its branches» for the period of 3 years (Chairman of scientific advice, academician Academy Sciences of Ukraine N.G. Chumachenko, scientific secretary of advice, cand. tcon.scies. A.I.Zemliankin).

In the same year under the petition of StateLabour USSR was directed on year training with a separation from production to Academy of social sciences (Moscow). Therefore from the position of the manager by lab (Zdanov; modern. Mariupol) was temporarily transferred to the position of the scientific employee of same lab (Order on the Ukrainian branch SRILabour for № 89-to from 6.11.1990) and has left on study (in a "Labour" record № 17 from 12.11.1990).

Except for preparation of two monographs in Academy of social sciences and reading on departure of a course «Sociology of science» at Donetsk State University, and also passing of training at International summer school of the sociologists Moscow - St.-Petersburg for prof. Lesly Kish (USA), prof. John Jackson, prof. Jey Schmideskamp, prof. Uliam Zimmerman, prof. J.Layker (USA), doc. A.A. Rusalinovoy, has shared in creation of the academic division NAS of Ukraine in Mariupol. Namely, - after the Order of SovMin USSR for №252 from 13.09.1990 (see appendix 3) and Order of MinLabour USSR from 10.04.1991 for № 17 on the basis of Ukrainian branch of the research institute of a Labour GovLabour USSR was generated the Ukrainian research institute of the Ministry of a Labour USSR (see: the order UkrSRILabour from 12.04.1991 for № 14-to; a record in "Labour" № 18 from 22.04.1991). Therefore was made all possible (has helped I.K.Karimov and even it was useful my deputy certificate) to transmit the Mariupol division UkrSRILabour in an Academy of sciences of Ukraine. And pursuant to a Commission of a Cabinet of the Ministers of Ukraine from 6.12.1991 №23724/62 Academies of sciences has considered the problem on creation in city Mariupol of Department of social and economic problems of port's-industrial centres of Institute of an industrial economy Academy Sciences of Ukraine, having transmitted this institute budget financing, isolated Mariupol govstate of Donetsk area pursuant to a Commission of Advice of the Ministers USSR from 11.05.87 № 5460/82 UkrSRILabour (letter of Vice-president AS of Ukraine, academician AS of Ukraine V.P. Kuharia from 18.12.1991 №226/1369-3). In this Division on activity in Institute of an industrial economy AS Ukraine with

position of the manager lab UkrSRILabour was transferred 25.12.1991 (Order of UkrSRILabour from 25.12.1991 № 92-to; Record in "Labour" № 21 from 25.12.1991). And at once was entered in real a preparation for doctor's degree of Institute of an industrial economy AS of Ukraine with a separation from production according to the Order of IEInd AS of Ukraine № 156-l from 28.12.1991 (record in "Labour" № 22 from 26.12.1991).

Most interesting here again starts. I having reported practically for 1,5 years of study in a preparation for doctor's degree of Institute of an industrial economy AS of Ukraine on meeting of department (chief, academician of Academy of economic sciences of Ukraine, prof., Dr.econ. (PhD). V.V. Finagin), has received the official guideline to not prepare for protection a doctoral work, and taking into account eleven monographs (11 monographs!!), published on a subject doctor's work of activity to perform for protection the report on published activities. This guideline was so severe, that its put in the basis of the petition before Presidium of a National Academy of sciences of Ukraine on behalf of Institute of economical and-legal researches NAS of Ukraine (director, academician NAS of Ukraine V.K. Mamutov) about a direction of training in Germanium; with the purpose of analysis of experience of operation of the free economic areas (Hamburg etc.) And «of experience of forward firms Germanium (plants a Sleet, «Folksvagen») and Francium («Sitroen», "Fiat»), and also with activity of exchange frames » (№299/116). By the way, Presidium NAS of Ukraine (Vice-President NAS of Ukraine, the academician NAS of Ukraine I.I. Lukinov) has backed up the petition and has permitted training («About sending A.V. Vasiljev in Germany» №15/206 from 15.02.1993).

One only vice-director IELR NAS of Ukraine, prof. Dr.econ. (PhD) V.V. Finagin disapproved waiving preparation of a doctor's work. By the way, Valentin Victorovich Finagin was the sincere patriot of Mariupol much which has made for its social and economic development (about it we spoke at an international scientific seminar in Mariupol in 2003г., dedicated to Memory V.V. Finagin; it is that all that may while to make for preservation of Memory about this present scientist of an Academy of sciences of Ukraine) and Chairman of Committee of foreign business Supreme Rads of Ukraine S. Stashevsky then it has understood (letter behind 06-14/12-338 from 14.05.2003). V. Finagin always supported our initiatives, aiming to keep academic division, generated by us, in Mariupol, and on behalf of NAS of Ukraine hailed a cut-in of section of scientific advice IELR NAS of Ukraine in city Mariupol of March 19 1996г. Therefore, take into account his position could and with the party has preformed for protection a doctoral work the subject of «a Complex social and economic estimation of productivity of a Labour (experience of the methodological analysis)» /336 pages and 250 p. appendix /, DEDICATED to the Outstanding economist of America and Russia to Wasiliu Leontjef. By the way, due to the letter of Wasilia Wasilievicha Leontjef in 1989 has accepted the final solution actively to work in economic science, namely after his proposal to share in international competition on convertibility of Soviet rouble (Letter A. Vasiljev from the professor W. Leontjef from 15.12.1989; New York University, USA). But, specially, after obtaining the CERTIFICATE from Frederick Fertha (from 2.06.1990; San Francisco, USA), which one too was produced not without assistance of Wasilia Wasilievicha Leontjef (he was the member of competitive commission).

June 30, 1992 three months prior to protection of a doctor's work (at the standard one month) was dispatched from the Russian Academy of control an abstract and September 24, 1992 successfully protected a doctoral work on a specialty 08.00.05 (on that specialty on which one was attached in a preparation for doctor's degree IEInd of an Academy of sciences of Ukraine), which one was actually executed on the joint of economics and sociology, i.e. as the scientific economists in Eastern Europe till 1917 worked (M.M.Kovalevsky. M.I. Tugan-Baranovsky, N.D.Kondratjev). It was mirrored and in a structure of the official opponents - two economists (Dr.econ., prof. L.A.Kostin and academician RANS, Dr.econ., prof. W.A. Shulga), and one sociologist (Dr.

Phil.scis., prof. P.D.Pavlenok). As far as this activity was is well-timed it is possible to see from the Forewords of the academician AS of Ukraine N.G. Chumachenko and professor S.M.Gricaj to two monographs published specially to 1992. But as far as she advanced a common background of theoretic-methodological activities it is visible only today, when in Mariupol of the monographs with the Foreword N.G. Chumachenko and S.M.Gricaj even were excepted from the urban library in 2001-2002. And is true, if in 1991 the works were reprinted, that anywhere there was no surname N.D.Kondratjev, in my doctoral work is and N.D.Kondratjev, and Jd Clarke, and S.U.Witte, and A. Marshall, and Dj Kejns, and M.I. Tugan-Baranovsky, and P.A. Sorokin, and P.L. Lawrov, and A. Manuilov, and W.S.Nemchinov, and N. Stolyrov, and G. Ford, and L. Harris, and G.Emerson, and even the links to the Sacred Letter, and critic of the Conflict's theory K.G.Marks is given, probably, for the first time completely from sociological and - economic positions by quoting of his contemporaries in Eastern Europe, i.e. the actual aftertreatment of social and economic schools of Eastern Europe of the end XIX century and beginning XX century is carried out (!). By the way, in the same year in the Russian Academy of control have passed and «Kondratjev of Reading ». What huge efforts costed to my teachers and colleagues – V.G.Lebedevu, A.T.Spicynu, V.I.Kushlinu, N.G. Chumachenko, V.V. Finagin, V.A.Vasiljev, L.A.Kostin, P.D.Pavlenok, Lesly Kish, W.W. Leontjef, J.T.Toshenko, G.M.Dmitriev, I.I.Chngly, N. Portianko, P.S. Gpliku, I.K.Karimovu, L.M.Guly, G.G.Vucelo, N.F.Matushynu, E.D. Katulskomu, E.A.Podobedovoj, N.P.Grinevskoj, M.G. Tuzovskoj, S.V.Prusikovu, A.I.Bandure and all to thirty professors on economic sciences (30 professors!! You can call University or Academy in any country with similar stand of economics?!) stands of economics and organization of economic systems of the Russian Academy of control to **execute(come true) this methodological breakthrough!**

Its actual value and after 16 years cannot completely be evaluated. Ten are necessary of years - fifteen. This concerns also concrete economic minings, when only from a level of the allied ministries it was possible to see not only their actual value, but also perspective. Last is reflected in helps about an intrusion signed by a management actually of the allied ministries - Mintiajmasha and Minchermeta, but in the beginning of 1992 is formal already by chief deputy of board of concern "«Tiajenergomash" V.A. Alexandrov and Vice-president of corporation "«Rosschermet" L. A. Antonenko. Today is not trusted at all, that such scope of work in such deadlines was made, and main - the quantum leap in understanding, concrete understanding of social and economic realities on paths to the group's hierarchic property with prevalence its intelligently capacious of the forms(shapes) is carried out during nationalization of technologies. **Yes, now exposure is necessary to all of us and the time ... is necessary**

The reached outcome very much has pleased and Valentina Victorovicha Finagina, and Nickolai Grigorovicha Chumachenko, and Anatoliya Petrovicha Shpaka. At once there was an idea about creation in Mariupol of independent Department of a National Academy of sciences of Ukraine. And Nickolai Grigorovicha Chumachenko is sincere me has congratulated (all statements, the acts and the orders he signed) with successful protection of a doctor's work and advance ending of a preparation for doctor's degree of Institute of an industrial economy NAS of Ukraine (see record in "Labour" № 23 from 26.02.1993. The order of №34-1 from 30.03.93 «Is deducted in connection with successful protection of a doctor's work »), having said: «Now You the recognized expert in 60 countries of a Wide World, since the Russian Federation is the assignee USSR». And Valentin Victorovich Finagin at once has accepted me in the Department of economical and-legal problems of development of territorial systemsIELR NAS of Ukraine on the full rate of the high scientific employee (Order IELR № 26-1 from 6.04.1993; a record in "Labour" № 24 from 4.01.1993.). The same relation was and in Department of economics of Presidium NAS of Ukraine, which one has approved my candidature by managing sector of social and economic problems of port's -industrial

cities IELR NAS of Ukraine in 1993 (Order IELR № 86-1 from 1.11.1993; a record in "Labour" № 26 from 1.11.1993), and V.S.Chishko helped us to establish contacts with NASRT and to receive there financing for IELR NAS of Ukraine (Donetsk).

But there can be only academic science considered (counted) the obtained documents competent for Ukraine, and the universities were of other judgement?

We look in the word-record card a record - «Is appointed to the post of the professor in combination stands of an industrial economy and organization of production of PriAzov's state technical university as selected on competition» (Order of PGTU № 263-07 from 5.10.1993; a record in "Labour" from 29.09.1993). And the same attitude (relation) we see in 1994 in the Mariupol humanitarian institute of Donetsk National University - «Is adopted on the position of the professor in the Mariupol humanitarian institute of stand of historical and pedagogical disciplines in combination» (Order MGI № 208/06 from 28.09.1994; a record in "Labour" from 10.10.1994). As you can see problems was not.

While the rise of democratic transformations in Eastern Ukraine tendency was watched to use the reached scientific outcomes and to lean against the prepared experts was generic in state frames and Mariupol (Petition to the First Vice-prime minister of Ukraine V.M.Pinzenyku from Mariupol gov-office M.A.Pojyvanova about creation of Department NAS of Ukraine «of Economical and-social problems of port's-industrial locales»; from 27.12.1994 for №3-1135-01) and Donetsk area (Petition to the First Vice-prime minister of Ukraine V.M.Pinzenyku from Donetsk region-office about transfer to Department NAS of Ukraine «Economical and-social problems of port's-industrial locales» in city Mariupol of budget financing; from 16.12.1995 for №5-377).

But there can be it there was an initiative only administrations and its was not supported by anybody neither in Ukraine, nor for e ě by limits?

See the prompt and totals of two international forums, which one were conducted in city Mariupol in 1995 of June 21-23 - «Social and economic problems of port's-industrial cities of PriAzov» and «Sea economy complex and ecosystem of the Azov sea » (see. The appendix 1), and also «the Report on activity of institute in 1995» IELR NAS of Ukraine section «IX. CONFERENCES, CONGRESSES, SEMINARS». Up to 100 persons of the participants and up to 25 of the states of UIS (foreign) and guideline for Cabinets of the Ministers and for Supreme Rads and State Duma RF from the academic science of Mariupol (!).

Therefore it is understandable, as in 1997 the chiefs of firms and Mariupol gov-office actively struggled for the academic Department in PriAzov (Petition to the President NAS of Ukraine B.E.Patonu from the President «Union of the industrialists and businessmen» of Mariupol; for №34 from 14.02.1997; and from Mariupol gov-office from 28.03.1997 for № 03-298 — 01). It is interesting, that the advanced firms, which one were substantially bound with foreign trade activities kept to put a problem on preservation and development «of the academic frame of a National Academy of sciences in Mariupol» and in 1999 (see Petition to the President NAS of Ukraine, academician NAS of Ukraine, Honorary Citizen of Mariupol B.E.Patonu from the Chief ASC «the Azov marine shipping company» A.I.Bandury; for № A / 02 from 04.01.1999). That all actually rested on the ahead of schedule completed preparation for doctor's degree in Institute of an industrial economy NAS of Ukraine and protected in RAM Russian Federation a doctoral work.

In this period from the organizers of International conferences in Yalta - Foros on problems of integration of Ukraine with European Union, which one were conducted at financial support of Commission of European Union, all time there came on our name the adoption DEEDS.

It any more not speaking about that support, which one was received already by new our minings in 1999 from the experts of the economists of the Ukrainian universities and international public associations scientific (Academy of economic sciences and enterprise activity, Petr's of an

Academy of sciences and arts, Crimean Academy of sciences, RAGS), which one even were put forward(extended) on the State Premium in the field of science and engineering of Ukraine in 1999.

But main - not only in Ukraine, but in the Russian Federation, on Cuba and in Poland aimed to use the prepared expert. So in 1999 in Moscow under my scientific management the doctoral work of the graduate RAGS is defended at the President of Russian Federation, cand. phil.scis. Ramaza Akkakiyevich Logua, which one HAC Russian Federation asserts in 2000., we on behalf of Ukraine participate in XI Congress of Association of the economists of countries of Latin America and Caribbean basin and 10-th Congress of the professional scientific economists of Central America and Caribbean basin (Habana, the 1999) and concludes with Association of the economists of Cuba the agreement for cooperation, and in Warsaw the monograph is issued written for period of training in Institutes of Poland, as the Second report «on revolution of efficiency» to Roman Club discussed more by 40 professors of Poland, and article, one of which is dedicated to Memory of Wasilia Wasilievich Leontjefa (for me specially important).

With the party today is sincerely grateful to all International Biographic Centers and associations scientific, which one all these 16 years really rendered to us moral support. It both colleagues and management(manual) in New York of an Academy of Sciences, and in International Biographic Center in Cambridge, and in the American Biographic Institute, and in Publishing House «Who is Who», and in the American Association for the Advancement of Science, etc. They would be surprised with problems rather recognition of outcomes of training in a preparation for doctor's degree IEInd NAS of Ukraine. Though, as the opened historical seams of the information testify today, the unbiased attitude to the experts in Eastern Europe should be given to them with large efforts, than us. But they to overcome all "«beddings»!"

Nor arose of problems and in 2004-2006 for a management and colleagues at the Odessa National University by name I.I.Mechnokova (see "Labour" and Appendix 2) and at University "«Ukraine".

However, for me very many questions, both to the separate chiefs, and to a management in Kiev today were accumulated.

And most important - what for artificially to create and to support legal vulnerability of the experts of top skills?! You see those "«experiments", which one today above them make repel from science and teaching of the capable people in Ukraine. It was so boldly exhibited in fates of tens to me of the familiar post-graduate students and scientists, that calls sincere surprise pseudo-activity of all informal chiefs of the chiefs of personnel services, and not only personnel services ...

It would be desirable with humour to write, that could (for wishing to receive from me the application on new protection) to preform habilitation activity on agricultural technologies (it recommended to preform a management of Institute of construction, mechanization and electrification of an agriculture in Warsaw by results of training, having issued the appropriate Order); or on engineering science, having finished the theoretical description of experiments (outcomes - 7 of 14 Copyright certificates on the inventions), conducted in 1981-1983., but becomes very sad, when I re-read the letter, written to you.

**It would not be desirable to joke, since depresses Wildness of motives of tens to me the familiar chiefs. And as a corollary - absence of perspectives for normal, fruitful activity.**

**With sincere regret,**

Alexander Valerievich Vasiljev (Vasiljev-Muller)  
Vice-president of the Azov Department of Academy ES&E,  
The doctor of economic sciences, high scientific employee on spesh.. «Sociology of a  
Labour and economic sociology », candidate of engineering science, «the Inventor  
USSR », candidate on habilitation activity on agricultural technologies (Order IBMER  
in Warsaw, 2001)

P.S.

If is true in Ukraine there are formal problems with the recognition of the candidate and doctoral diplomas and there are any limitations in a provision of pensions, I appeal for(ask) officially to inform. That we could with the colleagues discuss these documents and leave with the proposal to the deputies of Supreme Advice of Ukraine with the request to originate removal of artificial discrimination, which one substantially harms to Ukraine.

**You see, if it concerns even faces of a pension age, in a modern world for country, which one struggles for preservation of an intellectual potential this invalid squandering of intellectual resources. It in times Petty (1662) in statistics at mors after 70 years reasons at all did not indicate. Today for scientific 75 years and 80 years become in all world the norm(standard). For elderly scientific industrial countries struggle, and we limit them in any "«copecks". As that all it is no-civilization.**

On the letter № 19-102vuh-23np-08

From 26.03.2008

On № 19-p from 14.03.2008

On № In - 6575 from 3.03.2008

By me 2.04.2008 is obtained the letter from Prosecutor's office of Donetsk area for №19-102vuh23np-08, in which one is spoken, that the General prosecutor's office was mistaken and has sent my the reference to a management of Ukraine in Prosecutor's office of Donetsk area.

The reasons of dispatch of my reference(reversal) to the Minister MInA of Ukraine by prosecutor's office of Donetsk area in city Ivano-Frankivsk are clear to me.

Therefore I refer a copy of the reference(reversal) to the Minister MInA of Ukraine U.Lucenko to Prosecutor's office of Zakarpatye area, where now I am registered in city Khust, in higher educational putting which one - Carpathian Institute of business of University "«Ukraine" - there were all marked in circulation events.

If by consideration of the reference(reversal) in prosecutor's office of Zakarpatye area will be taken is severe, it is farther with all established facts will go on consideration back to Kiev and in Donetsk area.

The appendices:

1. Reference(reversal) to a management(manual) of Ukraine - only to address Prosecutor's office of Zakarpatye area 7 sheets.
2. Document list and their copies - only to address MInA of Ukraine - 21 sheets.

MINISTRY of FOREIGN BUSINESS of UKRAINE

Mihajlovskaya area, 1  
c. Kiev, 01018, Ukraine

16.07.2008 № 203/71840-1946

Vasiljevu A.V.  
. Ivano-Frankivsk,  
76018, Box 228

**Dear Valery Alexandrovich !**

The Ministry of Foreign Affairs of Ukraine, in boundaries of the competence, has considered your reference(reversal) and informs following.

Pursuant to the Agreement between a Cabinet of the Ministers of Ukraine and Government of the Russian Federation about cooperation in the field of certification of scientific and scientific and pedagogical staff of top skills from 21.06.2002 parties recognize on territory of the states the qualifying documents of a state sample about judgment of scientific degrees, which one are produced by the authorized Bodies of other Party. The recognition of these documents does not provide behind itself of mandatory distribution(propagation) on their proprietors of the rights established Party on the territory for the proprietors of the national qualifying documents.

The equivalence of the qualifying documents about scientific stages of a state sample is established during certification of their proprietors.

Pursuant to the article 4 of the mentioned Agreement the authorized Body from Ukraine determines Maximum certifying commission, from the Russian Federation Ministry of education of the Russian Federation.

**In particular we inform, that in your reference number of the order of a Cabinet of the Ministers is insecurely indicated, which one adjusts(regulates) the given problem, namely the speech goes about the order CMU № 423 from 07.03.07, instead of № 432.**

Pursuant to point 5 About judgment of scientific stages(steps) and appropriation of scientific ranks of the high scientific employee approved by the order of a Cabinet of the Ministers of Ukraine from 07.03.07. № 423 (on which one you refer) explanation concerning application of this Order the Maximum certifying commission of Ukraine gives.

Have up to is conducted above-stated, you should address to Maximum certifying commission of Ukraine.

Besides, pursuant to the article 55 of the Constitution of Ukraine, each the right on the appeal in court of the solutions, act or omission of bodies of state power, institutions of local government, official and administrative faces is guaranteed. The order of the appeal of act or omission of bodies of state power is adjusted by the Code of administrative legal proceedings of Ukraine.

Thus, if you consider, that in operations of the officials of bodies of state power there are tags of a crime, pursuant to the current legislation you can them appeal judicially.

Yours faithfully,

The assistant of the Director of Department cultural  
And humanitarian cooperation

M.B. Unger
