CREATION OF CIVIL INTERNATIONAL COMMITTEE April, 2003.

The tragedy of September 11, 2001 has shocked all world, by showing absolute vulnerability. With destruction of buildings of World-wide Center in New York our illusions have addressed to ashes, that "Thou shalt not touch upon" and is possible somewhere "to be covered" (the wisdom does not work). Each inhabitant of a planet the Earth is called to make selection - with whom he and than he can sacrifice "radioactive range ". He selects by what way he hopes to supply the future of civilization.

The time test our CIVILIZATION for strength. And the take-offs of our spirit can not be connected any more with REGRETING for the accomplished particular act against humanity, as Mr. Nobel after creation of a terrible means of destruction and has made as the Academician Andrei Sakharov after creation of a nuclear bomb has made. The catastrophe of terrorism can today be countered only by the initially highly moral persons, such, as Aurelio Pichelly, basing Roman Club, as Vadim Kirichenko, as Wasil Leontjef, basing international ACADEMY of economic science and enterprise activity, as the professor of medicine, President of a Polish Academy of sciences Miroslaw Mossakowski, actively supporting it intelligently - spiritual the shares and initiatives.

Just, such persons retrieved by the experts of publishing house "Who's Who ", have responded to our reference and in 2001-2002 years are deeply grateful: *Ms Allia, Valerie; Ms Drake, Laura; Ms Celeste, Mogan; Prof. Ray Besing Gilbert; Dr Chattopadhyay, Prithviraj; Famous Writer USA B.
