Dear Cosmic Family. Welcome to the WE ARE ONE Channel.

I bring messages from the HIERARCHIES OF LIGHT.

Greetings dear brothers. Listen to this message with discernment, with your heart and with an open mind.

Beloved. LIGHT is the CREATIVE SOURCE of everything that exists in the infinity of the Cosmos, from the SOURCE itself, which is the CENTRAL COSMIC SUN.

This creative energy diffuses through each CENTRAL SUN OF THE MULTIVERSES. Then reflecting each Central Sun of each Universe, passing through the Central Sun of each Galaxy, we thus have the origin of life, in movement of each star, which in turn also represents a Sun called the local Solar System.

The Local Solar System has a set of planets and moons and here it is easier to understand because we are inside one of them. Indeed we are on this planet EARTH whose known life of this humanity was introduced by the LIGHT that reaches here. LIGHT not only produces life as we know it, it also created minerals, gases, water, air and everything that exists on this planet, so we can say that all the changes that have already occurred and also those that will come, depend on the frequency of this LIGHT emanated by the LOCAL SUN, which actually works as a refractory mirror. It only reflects the LIGHT AND ENERGY that it receives from the other SUNS mentioned at the beginning of this message.

All CREATION, within this infinity, not yet understood by the limited minds of humans, depends on the frequency and vibrations contained in the LIGHT received in each sidereal sphere, as if in each Sun there existed a device that filters and regulates the intensity. and composition of that energy according to the needs of each planetary house, within the DIVINE PLANS that govern the worlds.

There is always a defined purpose for each of them. It's no different here on Earth. Within the movement of evolution everything was already planned, even before its creation, that is, its formation from the beginning through cosmic dust. And in current times, as humanity on Earth, we have the opportunity to experience a PLANETARY TRANSITION, an event never seen here because it is just the first transition of this young planet.

As if such a galactic event were not enough, humanity on Earth can also make its Ascension. As souls we live in epic times here, in such a way that it is reverberating throughout the MILKY WAY. Our beautiful blue planet will celebrate its existential coming of age, as it is now also part of the GALACTIC FEDERATION OF LIGHT.

We have left behind the energy produced by photons and are receiving the energy produced by Gamma light. This causes a radical change in everything that exists on this planet, since the Gamma light is changing the energy base from carbon to a crystalline energy base, that is, silicon. All this change takes place through the continuous increase of gamma light. This Light comes through the reflection of our Local Sun, since it comes from the Central Sun. There is a program commanded by INTELLIGENT CONSCIOUSNESS that are

not from humanity on Earth, which control this frequency to preserve the existing life on the planet. We can compare such control as if it were a valve, but which many know as Portals. These Portals began to open gradually starting in 2012, obeying an ascending scale in terms of frequency. They intensified according to the absorption capacity of living beings on Earth. Each Portal that opens is also called an EVENT, however in each EVENT the potential is being intensified as well as the time between them is shortened.

This means that as the months go by, increasingly rapid changes are promoted, which we have stated now. We are entering the season of the most intense events. Each Portal will bring more and more energy to create a NEW EARTH. In fact we are very close to the climax also called GREAT EVENT, which is nothing more than the opening of the largest Portal that this planet will ever witness. Each Portal that opens also opens a little more each consciousness that is ready for changes and this is easy to understand. You yourself can witness how your ability to understand today is no longer the same as before. Every day you can absorb more and more information into your consciousness as it expands rapidly into this now. However, not everything is flowers in the "Garden of Life" the process also causes a lot of discomfort, since it is all part of the GREAT CHANGE.

Although most of these discomforts are caused by resistance to change, there is also the energetic adjustment of the bodies, both the physical and the other subtle bodies. There is also the change in human DNA and the activation of "other helices" that were previously inactive for the information that comes through the channeling from the ARTHURIAN BROTHERS.

The next Portals will already be activating the fifth helix or the fifth strand as they say. In any case, it is an immeasurable advance within this TRANSITION. Our physical bodies are now undergoing extraordinary changes in terms of frequency and vibration, and in the near future even biological changes will be noticed and recognized by human science. The most important Portals of this year are opened. Follow the COSMIC SCHEDULE of the worlds and nothing and no one can change or stop what is planned in this Universal cycle. The time of limited consciousness is coming to an end. It is a time of celebration and not lamentation. Live this moment, because life is truly wonderful and you have to live it fully.

I am Vital Frosi and my mission is enlightenment.

Dear family of light, thank you for listening to our messages and remember that the fifth dimension is a vibrational state and that the choice to vibrate on the NEW EARTH is personal and involves an awakening and a process of raising one's own vibrational frequency. It is a journey of self-discovery and connection with the DIVINE within each of us. A transition towards a state of love, harmony and unity. We wish blessings in your life grace, thank you, thank you
