

**NOTHING WILL EVER BE THE SAME.**  
**Galactic Federation of**  
**Free Worlds**

**Greetings.**

We are the Galactic Federation of Free Worlds and we come into this now where you are feeling the beginnings of change. Depending on the course of its evolution, to some it brings greater karmic cleansing, to others it incorporates more essence of joy. For each of you everything is in its place. Everyone is eager to feel the change in their heart vibration. A whole new life is beginning for you, and you should start getting used to seeing beyond your five senses.

Completely new incomprehensible and amazing perceptions will arise in most of you that you will have to master so that you can understand the world around you. They are almost there, they still need to take a few more jumps, before the final spark or the beginning of the new paradigm. We are not here to judge you but to give you an understanding of what is happening right now. Everyone evolves according to the choices they make as a result of their free will. No one should interfere with your initiatory journey. You are the only teachers aboard your own ship, however making sure that you are doing well, that everything evolves well here on Earth is part of our service. Just as a mother does with her children, our greatest desire is to see them grow and prosper. We want the best for all of you and for GAIA (Earth). As you are already seeing, nothing will ever be the same. As a whole new world is emerging, the old structures in which they had to strive to get what they needed are collapsing. They will have to learn to be humble in everything. A new world will be opened to them where they will experience incipient discoveries, options, perceptions and learning.

Everything they are going to undertake will have the flavor of discovery and the conquest of the heart. Your center will occupy the main place of your choices before deciding something, you will first pass it through the filter of the heart. In the world of tomorrow, the space of the heart will be the center where you will consider and consider your wise decisions for the common good of all, of life in general and of GAIA. We have carefully studied the possibilities available from various timelines and everything corresponds to its evolution. On this magnificent planet, the old days of destruction, war without reprisals and discord are already part of the past. The old and sterile battles will give way to a time of peace and reconstruction of new civilizations respectful of the temple of GAIA and of all LIFE. Before you, other civilizations have already tried and failed, and now you, with the spark of love from your inner depths, are going to recreate again the work where those failed. However, not everyone will walk in the same way, although all together they will go in the same direction of unity.

We really see how his heart and his chakras are wide open. All of the crown chakras beat in unison and in beautiful synchronicity with the heart chakra of the Earth. We are witnessing the birth of your new dimension of being. We are delighted at this near advent and at the state you will experience, which is why we have come to offer you our assistance. We are very happy to witness this splendid spectacle of its magnificent evolution that is also marking the entire galaxy. We are proud and happy for this great leap that you are about to take, where time is not important. In which only your intention to continuously progress in your processes counts. So remain centered in your heart and in the joy of your soul, despite the dark events of recent times, as these also mark the end of an era and the paradigm of duality. Just as the water cleanses the ink, let the rain of the new times wash away the ailments and the darkness, so that the brilliant light of the sun's rays takes its rightful place in your heart. Let the heart rejoice. Know how to appreciate what you are going through because when you have done it, you will finally realize the distance you have come and perceive the strength and courage it has taken to reach this precise moment of

rebirth of the divine spark in your heart. Your race, just as ours did before it, is going to make a huge leap in its evolution and we can't wait to see how you do.

Our faith is in you. Leave us the pain of darkness and the illusion around you that depresses you. Let the colors of your heart shine brighter and brighter in heaven and on earth. Trust your inner home and go to meet your soul, as this will greatly help you to shine that light in this ascension process. Let the inner light of the soul shine brightly into your home. Let the child souls enlighten you and freely transcend into the new age. Stay united, focused and confident that everything will work out because it will.

All of us have gone through this process before you, trust that it will work out.

Your choices and decisions are ours, you are us, we are you. We are part of the unity through the same divine spark. Do not be distracted by false information. Focus on the joy that the spirit brings you and even if the conditions are not what you expected. Share these moments from the heart.

The strength of love goes beyond borders and any imposed barrier. Nothing is stronger than love. Stay united by the heart, be creative and reinvent new codes and use them to flood the hearts of your loved ones, so that you can overcome the barriers of illusion. As you read and listen to us, feel the great strength of our love.

**Thank you very much to all. we love you so much  
With love, your sisters and brothers of the Galactic Federation of Free  
Worlds**
