I am Ashtar Sheran.

I come with you at this time. At this opportune and long-awaited moment. For a long time you have looked for these different things that could happen within your Society that would bring change or show change, or knock down those "dominoes" that you have heard of so many times. And I'm here right now to tell you that it's going to happen very soon.

Many and varied changes are about to come upon Humanity. They are changes in different ways and from different sources. For our part and within our ships, we have been preparing, as you have heard before, to prepare for the GREAT SHIFT that is coming to this planet. Am I talking about the EVENT? Yes, but I'm also talking about what you might call mini events that have happened before. One of them is the beginning of the revelation. The beginning of the revelation of our ships. So in the very near future, weeks, maybe months, you'll start to see more and more of our ships. More than what you would call great observations.

Many people all over the planet will see the spectacle that our ships can show them. We cannot tell you more at this time. But enough for now, to give you an idea of what is about to happen.

You have waited a long time. You have prepared for a long time.

And I am speaking now of beyond this life. But many lives before this, you prepared yourself. You have prepared your different bodies. Not your physical body, but your astral body, your etheric body, your body mental and causal, to prepare you for this coming change, where the energies in your body are increasing. And the energies around you are also increasing. You are more and more capable and more and more able to handle these energies and to resist them. Is the time. This is the moment you have been waiting and looking for when all will be revealed. This moment comes, and it is very short now. Watch, watch your various sources, as more and more truths are beginning to leak out now.

Filter information through the different Media processes you have. Even making your Mass Media start to backfire, for they cannot hold on to the darkness any longer and remain in the light. It's not possible. So know this. Know that all the circumstances that happening now all over the planet are driving this process.

They advance the truth, advance the disclosure, and that will lead to the great change and the SOLAR FLASH that will cross the planet, and all the people, at that moment, will find the inner light.

I am Ashthar and I leave you now in peace, love and unity, and may you continue to look at the stars whenever you get the chance, because your family is there to take care of you.

And if you look and believe they will show themselves to you as your third eye continues to open wider and wider and you have those eyes to see.

You are blessed today tomorrow and forever we send a very strong and tight hug to each one of you we are the workers of light
