Dear Cosmic family. Welcome to the WE ARE ONE Channel. I bring messages from the HIERARCHIES OF LIGHT.

Greetings dear brothers. Listen to this message with discernment, with your heart and with an open mind. Message from Vital Frosi.

Beloved, the great cycle of trials and atonements on Earth comes to an end. The conclusion of an apprenticeship is rapidly approaching, where individuality predominated since the primordial times of earthly humanity. The limitation of consciousness was a natural mechanism used for the purposes that served the evolution of those consciousnesses. Creating in the almost absence of Light was an experiment that this school of souls allowed itself since the beginning of this Civilization. The law of survival prevailed almost all the time since the risks of subjugation were eminent and constant. The law of strength and the best

physical and mental ability guided the advances of human society and allowed experiences within the laws of action and reaction. The souls who came here sought such experiences, even without being aware of the pre-established goal. Only the individual subconscious moved the steps of the evolutionary ladder of the collective and also of the individuality itself and thus the millennia passed, incarnation after incarnation. on the psychic wheel of the worlds.

The Earth also reaches point zero and a new time begins to materialize. Consciousnesses, previously individualized, now come to be grouped into the unity that is the basis of the new cycle of the Earth and competition ceases to exist, giving way to cooperation. The interconnected Minds, not only among humans on Earth, but with all the galactic beings of this universe, will interact as a collective and no longer in an egoic and individualized way, so much so that communication will be through telepathy.

Thoughts can be read by everyone else and that is why there is the separation of the wheat and the tares, since ethics and morals will be the basis of the new society. In addition to telepathy, teleportation will be the means of locomotion. We will be a much higher consciousness and a thought will be enough for us to be somewhere else, regardless of physical distance. There will be no possibility that it can create discomfort for anyone, because the tares will no longer be among the humans of the NEW EARTH. And so we will also be co-creators of anything that is necessary on a daily basis. We will replicate everything from food to houses to live in.

We will know how to use tachyonic energy, which is the first form of materialization of Light. The ingredients of everything that exists on earth will always come from prana, which are natural energies of creation. Yes, there will be in the first moments, technologies suppressed by the own interests of the old civilization but, above all, those that will be brought from outside the Earth.

There will be an initial time of this New Age, where everything will be modified including the biological constitution of the human being. Gradually we will stop feeding ourselves with materialized foods and our body will become more and more subtle. It will begin to feed more and more on prana, that is, on liquid Light. Just as everything can be materialized, everything can also be dematerialized. The force of quantum consciousness will create and dissolve according to need, remembering that no human being on the new earth will use its power to gain

advantage over something or someone. Each one will always have the responsibility for the observance of the whole. The fifth-dimensional Earth will now be part of the Galactic Federation of worlds and each being will know and respect the rules. The planetary transition will also involve the other kingdoms. All of them will have new energies and vibrations as their frequency. Minerals, vegetables and animals are also consciousnesses and will raise their frequencies in the same proportion of the planet. Some species will cease to exist on the NEW EARTH, but on the other hand, new and interesting species will emerge and thus we will enter a new cycle, a new time. Of course, this will be the new reality of consciousnesses ready for ASCENSION. Those who are not yet ready will have opportunities in other schools of souls, in other worlds of tests and atonements.

I am Vital Frosi and my mission is enlightenment. Dear family of light, thank you for listening to our messages and remember that the FIFTH DIMENSION is a vibrational state and that the choice to vibrate in the new earth is personal and involves an internal awakening, a process of raising one's own vibrational frequency. It is a journey of self-discovery and connection with the DIVINE, within each of us.

A transition towards a state of love, harmony and unity.

We wish blessings in your life

Thank you thank you thank you
