

Your patience will be rewarded

Master Ascended Dwanl Khul

Dear Friends, I am here to tell them that they are patient with those around them. Maybe they do not feel listened in these changing times of their land. Each soul here is moving from the third to the fourth and fifth dimension. Many can pass through the fourth dimension without problems, but others may need our help. It's as if they were asleep, so to speak, and nothing you do or say about what is happening will persuade that something is changing. In my time as Tibetan monk on earth, we had to learn to master patience and I had problems with that when I was young. Over time and very guidance, I could accept my own impatience and that of my loved ones, so you can also do it. This stay in the fourth dimension will not last forever and over time and a good dose of patience, who already woke up from their dream will begin to see how they wake up from their lethargy those around them. Many things are happening in the world behind the scene. Gaia is ascending from the third the fifth dimension and, as a conscience, he knows exactly who his friends are. She can see through the soul of each human being. There are some dark beings that pretend to worry about your planet, but she sees through them and will not allow these dark beings to continue stepping on her soil and, when the time comes, you will go. There is a lot of talk about climate change and yes, it is happening, but not the way in which many dark ones would like. Dear ones do not worry, because climate changes are getting the planet more habitable, not the opposite. It is true that many more earthquakes, eruption volcanoes, strong winds and rain, and strange climate patterns occur. Not all are natural. Some have been caused by dark elements, however Gaia (Earth) is using one of its changing climate patterns for your advantage and over time, much of your planet will become more habitable and less volatile. Gaia (Earth) is more able to face pollution in a way that has been hidden to the population in general. She knows how to use plastics that pollute her soil and her seas, as well as sustainable energies that do not hurt her or her people. Gaia has many natural cures for abundant diseases. Much of this information has been hidden in the past, but soon you will see that these hidden technologies will come to light. The dark entities have been on the planet during Eons of your time and they have caused a large part of the diseases they know and others of those who have only heard. They have kept you under your control and that is why you fear these diseases. The unnatural cures that have fostered, moved to the people of destiny dictated by their own soul, but this will stop soon. In truth, your body and your mind can create a disease from which the soul can learn, but once the soul has learned the lesson, the disease can and should disappear. However, many of their doctors do not understand this concept and may be told, that certain conditions can never be cured. Dear ones, their bodies are changing carbon to crystalline and as such, they will be able to cure anything. The current pandemic

was initiated on the dark side, but Gaia took advantage of her awakening many souls to her own mission on the planet. Many of you understand what I am saying and have had a lot of patience waiting for others to see the reality of what is happening. You do not need to be under the control of people who do not harbor the best interests in the heart. You are a sovereign being in its own right and you can manifest a new world of love, peace and harmony with others. Therefore, while the others go awakening to be in charge of their own destinations, their patience will be rewarded. Those who have been mocked from you in the past by your views, will awaken suddenly and begin to see for themselves what has been going on on Earth for so long. The time came to learn new ways of being and forget a lot of what they told them in the past. You are a sovereign soul and as such you can create a new world of your own design, a new sky on earth. We are here to help them accept all this and a large part of the truth will come to light soon, but much will be hidden to the general population. For now it is enough to say that the truth is emerging in small doses, in order to awaken people. When you see it, you may be asked because God has allowed such a lack of harmony and reality. Well, God created life on earth as an experiment, so to speak. Souls were allowed to come here to experience polarity, good and bad, to learn and grow. However, certain almas of distant galaxies took over the experiment, because they also needed to learn and grow. However, divinity will not allow a planet to be destroyed in their learning, and this is a possible timeline, so it is time for these souls to continue their growth elsewhere. Maybe some do not agree but even these dark entities have a soul and are part of the only true God. Believe them dear and send him his love and light, because they need it a lot at this time. You, that so much patience have in these dark times, will soon be celebrating when others join them to manifest this new world of its creation. Have faith, trust and create. Your own patience will be rewarded. We will help them through this time. Know in your hearts that good always defeats evil. I am your Dwanl Khul server call me in your meditations and in your dreams. I send you a lot of love and many blessings.
