

AWAKENING IN THE INFORMATION AGE

PLEIADIAN FEDERATION (ARCTURIAN ORDER)

Dear Ones, today we will speak of the AWAKENING in the Information Age. We are very pleased with the progress we have seen Humanity make as they enter this period of increased awareness of their World. Often having more information is of no use to you because it is a distraction. Knowing something can't be that you focus on your thoughts instead of your feelings, so in this period of information life the number of humans waking up is particularly encouraging, we see enough humans that we put down their phones and away from their computers and tablets long enough to have a truly spiritual experience. It is true that there are spiritual experiences that can be had online, but if you really want to connect with yourself and your emotions, it is more important that you go out and live your life. Interact with other humans face to face. Connect with the animal kingdom. Connect with the trees and Mother Nature. Detox from your devices as often as possible so you can really know how you feel. Observe your thoughts while you fall asleep and what they reveal to you. You think of something that really happened in your life- You think of something you have read or seen online. Once again we will say that it is important to be connected through the Internet. Do you want to take the time to be in real life in the real world with other humans? When you meet with other humans, be the one to suggest that everyone turn off their phones, so that you can be present with each other, so that you can notice when someone else is in need of compassion. It is time for Humanity to step up this awakening process and those of you who you receive this transmission (message) ironically you receive it on one of these devices, which we are talking about, but you all have enough sense to know that everyone serves a purpose and that purpose can be positive and you also know that a balance of energies is important, and you have to balance the amount of energy you spend on the Internet, with the amount of energy you spend going out and moving your physical body connecting with other living beings in the afternoon, You are here to bring Humanity into the Age of Ascension Gold and the most powerful and effective way to do that is to really be there for your fellow human beings, comfort them, share your stories and simply Mind being present while you feel what you need to feel. In this Digital Age, in this Information Age it is necessary that as many humans as possible understand that this is truly the Age of Enlightenment and that the best way to experience their awakening is to have a real and authentic connection with all living beings. .

We are happy to see that there are enough among you who realize this to set the rest of Humanity free and encourage your fellow man and go for a ride with them; go out with you in Nature or just sit with you, while the electronic devices are not turned on. This is one of the many ways you will lead Humanity into the fifth dimension.
