

The 9 letters of Christ

Letter V

I, the Christ, am writing this LETTER N° 5 to clearly define the hidden REALITY, which I will also refer to as the 'UNIVERSAL' and the 'DIVINE', to help you to open your mind and to understand that while you are an individual, HE WHO GIVES YOU BEING and INDIVIDUALITY is in HIMSELF - Universal - Eternal - Infinite - everywhere without beginning or end.

For the sake of those people who have chosen to read LETTER No. 5, rather than the previous LETTERS, which describe my life and my true teachings, while on earth... I will say that my true being of 'Jesus' CHRIST, is not to be confused in any way, with the 'Jesus' described in the New Testament...

Since my original teachings, in the form of the four Gospels, have been distributed throughout the world and greatly misinterpreted, it is my intention to begin teaching the TRUTH of EXISTENCE, by explaining the true meaning of my original terminology, quoted in the gospels.... This is necessary to dispel, and eventually eradicate from people's consciousness, the misunderstandings that have persisted and misinformed generations of spiritual seekers since I lived on earth....

When I was on earth, to describe the Reality behind and within existence, I deliberately used the term 'Father' when referring to 'GOD'.... I had two reasons for doing so... Firstly - as I explained in LETTER N°1 when I received enlightenment in the wilderness, I could see that the concepts describing the Creator of the universe, as "revealed" by the Jewish prophets, were completely erroneous... Secondly, I was allowed to clearly perceive - and fully understand - the true nature of the Creator, and realised that it was a nature of fatherhood/motherhood - of meeting the needs of creation, in a specific and well-defined way, which is synonymous with that of a father/mother.... I saw that the fatherhood/motherhood impulses present in every living being were drawn directly from the Creator... and that the origin of all Love and fatherhood/motherhood impulses were also the origins of life and of existence

itself... I also 'Saw' that creation was a visible manifestation of the Universal Creative Impulses of Being, and that therefore, humanity could be called "The Progeny of the Creator"... emotional attitudes, and my teachings themselves... would have made it abundantly clear, that the ancient Jewish forms of religion and my enlightened teachings... were diametrically opposed in every respect!... The Judaic religion was of extremely materialistic concepts.... Certainly, there are writings from which the spiritually enlightened Jews - drew and still draw - a mystical perception of our SOURCE of BEING... They deserve to be revered and respected for their transcendent state of mind... But as the prophets reached the common man and woman, through their writings a different, controlling message was conveyed to them that was purely human and false... "No control of 'good' or 'evil' is exercised from a 'God above'..." If there were, the world would not be in such a frightful state of disorder and misery!.... long line of Jewish prophets, who continued to preach their themes of an all-powerful Jehovah, who possessed ambivalent feelings towards His own creation... The fear of the Orthodox Jews kept my disciples in line with what they had decided to tell the people about me... You must remember, that in order to gain new Jewish adherents to Christianity, they did not get rid of the Old Testament, since it had held the Jews together for centuries... therefore, they removed and added to my teachings, everything that was compatible with the old religious beliefs... And a genealogical line was drawn, which assured the Jewish people that I had descended from King David....

Why would they bother to do this, unless they wanted to make it clear that I was a Jew of ancient lineage, and therefore eligible to be the Messiah.... If they had really understood what I had come to earth to do - to break with the past and lay the foundations of a future of entirely new understanding and activity - they would have made valiant efforts, to ensure that the people understood the true purposes which drove me to the day of my death!....

But they did not!.... They obscured much of what I tried to teach!.... A great-hearted disciple of mine, Stephen... was not so afraid to speak out about my true teachings, though they too had been modified, but still, he was stoned to death....

You must understand, that the life of my disciples was precarious, and that it is not surprising that they masked my teachings with traditional thoughts, to make them more acceptable to the people.... There will be violent disputes, however, when I say that 'Christianity' only presents some of my claims and healings, which have little conflict with the Judaic teaching..... It is a religion created by my first disciples and Paul... after their initiation in Antioch, to keep the Jews together as far as possible, and to bring the Gentile converts into the fold... Expediency" then became a facet of Christian thinking....

This is the truth about my life and death on earth!.... Disputes will arise, because people cling to their most cherished beliefs... and abandon them only with the pain experienced by those who lose their most cherished possessions... However, however dear their beliefs may be - they are only beliefs.... They are not firm foundations, upon which new lives can be built... Now that I return to you, through the Channel of these LETTERS, I am attempting as much as possible - within the parameters of your human perception - to describe for you the Reality, your SOURCE of BEING - which initiated the universe and existence itself... Exactly as 2000 years ago, I have now come through the channel of these LETTERS... "to lay the foundation of future spiritual evolution

for this millennium"... Your spiritual development, can only arise from your deepest perceptions and understanding of the nature of existence... and of 'THAT' - THAT GIVEN YOU THE BEING!.... For that which you perceive clearly, is that which creates the conditions under which you live. By virtue of its failure to understand its true spiritual origins, humanity is continually embroiled in wars, and has engendered earthly conditions, which are both an embarrassment to human consciousness, and a source of human suffering of every kind.... For this reason, I am SENDING - IRRADIATING - THE FULL POWER OF MY CRITICAL CONSCIOUSNESS, to bring the TRUTH of EXISTENCE to you, in the kind of modern understandable terminology... that will enable you to build a new consciousness and understanding of 'Truth as it really is' - rather than letting you continue to adhere to those false beliefs that you have been taught, or have received by tradition... With use and understanding... the terminology will awaken in you the same - or more - Reverence, Love and Spiritual Vision than you felt before, when using the word 'God'... Loaded with universal significance, the most appropriate terminology will finally fill you with spiritual power, when you use and visualise the meaning of the words...

I am here to tell you, that when you have purified your consciousness of the crass human thoughts and feelings of the 'ego' impulse... and persevere in meditation and an elevation of consciousness towards the Universal, you will begin to feel the spiritual power invading your mind... and eventually your whole body...

Therefore... my teachings are directed exclusively, to help you open your consciousness to the new life that is coming in!... To vitality and spiritual power... so that you can let go of your old, limited and unfulfilled way of living... and find a new source of inner joy and fulfilment of your every need!... Think of this statement: I have not brought you any 'shoulds' or 'should nots', or frustrating restrictions that you do not want to impose upon yourself!...I have indeed come, to tell you how your 'forms of consciousness' have life within themselves...and ultimately manifest in your world!...But I leave it to your common sense, to choose the wholesome thoughts, the loving acts, and the right path that leads to joy and fulfilment, when you understand the true nature of creation....

I have come also with the full force of my Christed Power!...that you may realise that there are no barriers between you and.... 'THAT'... THAT WHICH GIVES YOU BEING - only those which you have created yourself, by ignoring the Laws of Existence.... I have come to help you to remove the barriers, by illuminating your present ignorance... and teaching you how to open your consciousness - your whole Being - to the influx of THAT WHICH GIVES YOU BEING!... Therefore... I REPEAL: In the final analysis, my teachings are aimed exclusively at helping you to open your consciousness to the newness of life... of vitality... and of spiritual power... so that you may abandon the old limited and unsatisfactory way of life, and find a new source of inner joy and fulfilment of every need.... I long for you to attain this supreme state of Being with Divine Love... before you pass into the next dimension!... May your passage be without pain, and may your transition be one of sublime expectation!... This is the sole purpose that motivates these LETTERS!.... The above statement is a stronger and more powerful way of saying, in other words, what I said when I was on earth: "Seek first the Kingdom of Heaven and all good things will be added unto you!"... I did not make this statement to convince people that it was 'good'.... I stated a fact of existence....

You must fully and clearly understand that "THAT"... what you call "God" and what I refer to as "THE UNIVERSAL", does not possess any of the human attributes that many religions attribute to HIM... The human characteristics of anger, threats and punishments... for example, only belong to the human condition... Again, I repeat: "I, the CHRIST... have come down to dictate these LETTERS, precisely to remove from your mind the previous "images formed with human words" that the prophets created!... My firm intention, is to replace them with descriptions of the POWER - the UNIVERSAL CONSCIOUSNESS - which actually creates, moves from within, and supports the visible universe and all other dimensions, beyond your current perception and understanding... I am also here to tell you that these other universes or dimensions will open up and become accessible to your consciousness, when the knowledge outlined in these LETTERS is taken up and becomes the very structure of your individualised consciousness....

In the end, death will become a happy transition...from a limited dimension of existence, to a more living and powerful one.... You will know that when you are adequately purified spiritually, and that the time is right to leave the body capsule... You will leave relieved to be free of physical limitations, to enter a beautiful and wonderful dimension of Love and Being!... You will perceive death as what it should be - what it truly is for enlightened souls - a glorious transition!... A gift of greater life, of greater creativity... and an experience of 'ecstatic being' such as you have never dreamed of!... I also want to make it clear, that many, many people... believe they can live a fruitful and fulfilled life, by following the hundreds of various 'positive thinking' teachers... "Change your consciousness"... they say.... "and you will change your life".... This is true to a certain extent, but for seekers who are on a spiritual evolution, such a change of consciousness still leaves dryness of spirit and a yearning for something more.... That 'something more' that the soul craves is true contact and reunion with its SOURCE of SELF.... While you may have achieved some spiritual growth, by following the path of perceiving only that which is good, true and loving... you are still an entity functioning alone, in your own earthly place, unassisted by the Universal, Infinite AND Eternal!... Once you understand the nature of the UNIVERSAL... and you turn your thoughts to actually contact It... you will realise that you are no longer alone, that you are sustained by Reality... that which sustains the universe!....

And when I say... 'making true contact with IT'... I mean, that by supplicant prayer to receive this or that benefit, you are not making true contact with your Source of SELF...Certainly the Source of Self receives the prayer and often a quick answer is achieved, which meets the need, even as you asked.... But true contact with the Source of your Being will be experienced only when you have purified your consciousness sufficiently from the gross thrust of the human 'ego', and have spent some time in meditation and with a constant emotionally powerful intent to consciously reach out to the Source, seeking connection, renewal and reconversion of spirit....

This is the true purpose behind existence!.... A constant and mutual reciprocity, between the Source of Being and the creation... Here I remind you that when I lived on earth, every day I told the Jews very clearly that: "by myself I could do nothing".... He continually declared that... "It is the Father who does the work, not I"...

I have come at this time to enable you, to make your transition! "I have come at this time to enable you, to make your transition from an earth-bound consciousness, to that of enlightenment!

that he or she finally knows the Truth of Being!

No doubt people who are deeply religious, indelibly indoctrinated with religious dogma and theology - Jew, Christian, Muslim, Hindu or belonging to any other religious belief - will find it difficult - even painful - at first... to accept and make good use of these LETTERS, for a conditioned and programmed mind, is like cement....The cherished beliefs used as talismans...the emotional supports and affirmations to give strength in times of crisis...are emotionally etched into the subconscious, and usually carry a built-in fear of 'offending God', as we contemplate moving on to a higher Truth....

Unless there is a sincere yearning, to know the TRUTH of SELF, rather than traditional beliefs... these mental patterns are almost impossible to annihilate from the mind and emotions, and block true spiritual progress... I have come expressly, to assist those who have the will to move beyond these barriers, towards true enlightenment.... Therefore, if by intuition you feel, that the words in these pages are the TRUTH, and you are drawn to them.... be confident that you are ready to begin the spiritual path outlined in these LETTERS... and I am at hand to give you the courage to press on until you reach your goal!... "True spiritual enlightenment!... A new life!... Willpower!... and the encounter with what I called the 'Kingdom of Heaven!'"...

Daily... sincere meditation and prayer, will enable you to achieve mental purification... and progressively, TRUTH and UNDERSTANDING will replace the old myths that were once so important to you...

At the beginning of the following teachings, I, the CHRIST, must remind you that yours is not a solid universe... As you probably already know - according to your scientists - solid matter, the visible substance of the world... is really composed of particles of energy... The TRUTH of the BEING of your earthly dimension is based on this fundamental reality of creation...

To understand my teachings concerning the Truth of Being, it is necessary to grasp this apparent underlying fundamental emptiness of your entire created world... Most of you know this fact of existence intellectually... however, it has not yet filtered into your consciousness to give you a new perspective on the world and on existence itself.... You continue to think as you have for millennia, that your world is solid and that the conditions of the body and of all external phenomena are beyond your control.....

You think that you are victims of existence..... Yet the truth is the opposite.... And your lives reflect these beliefs!... Therefore, it is absolutely necessary that I return, to help you to move towards a higher perception of Truth.... As I said in LETTER N°1 - after the enlightenment in the desert - I returned to my world of Palestinian cities and towns and...

"I immediately began to control the 'elements of matter', where I saw the need to help those who were in need or suffering.....

I have come to show you exactly why I was able to do this!....

As I revealed to you in LETTER N° 1 - during the time when I received full enlightenment in the desert - I understood that 'matter' was not really solid....

I was not given to understand exactly how the electrical particles - which I called the 'twinkling specks' - appeared to be visible 'matter'.... I only knew, that these 'specks' were moving at high frequencies of speed within 'GOD-MIND'... and

that therefore, 'GOD-MIND' is universal... I perceived that 'GOD-MIND' was both the creator - as well as the substance - of all things within the creation itself... Of this, I was absolutely certain...

I also saw, quite clearly... that human thought "being charged with conviction or emotion", radically affected this process of the materialisation of visible forms... "Therefore the human mind could - and did - interfere with the true intention of 'GOD-MIND'!".... It was a thrilling and exhilarating realisation, since the myths I had been taught by the Jewish Rabbis were clearly false... and were immediately removed from my mind... I embraced the truth with enthusiasm, for I understood why the people

experienced misery and suffering. This emanated from their own thought processes.... I was also allowed to 'see', the 'communities of living particles' that science calls 'cells' at work within every living being.... I was conscious of the Divine Harmony controlling the functioning of the cells, which busily constructed and maintained the various parts of the physical bodies of all living creatures, great and small, and of plant life.... That is why I used the landscape so much, to give examples of the immanence and activity of the 'Father' within the lesser parts of wild life, such as plants and birds.

As I explained clearly in LETTERS 1 and 3, I called 'GOD-MIND' the 'Father' because I could 'see' - perceive - the true nature of 'GOD-MIND'... and I decided that when I returned to the people of Palestine, to describe to them the revelations I had received, they would understand that the beliefs imbued in their very consciousness by the rabbis, were completely false... I saw, that the true nature of 'GOD-MIND', was the highest form of Divine Love... and this could be seen to be firmly active in every living being... As I mentioned above... through this knowledge I could work 'miracles', and control the elements where appropriate and necessary... Just as I longed to explode the myths that possessed the minds of the Jews of Palestine... so I long to show you, that many of the theories proposed by your scientists, have arisen as a strong reaction against the dogmas and doctrines of the church in previous years...

To understand this statement, you must realise that before Darwin's time, while various Christian Churches held the minds of the people under their sway... it was generally accepted that the universe had been created exactly as it was written in the Genesis of the Old Testament of the Bible... When men of science attempted to announce their discoveries and theories, they were compelled to describe their new beliefs in the face of enormous religious opposition....

It was therefore necessary for them to use much of their mental energy in proving the claims of the Prophets wrong..... In doing so, the matter caused them to lose clarity of vision, and they were also dragged down by the 'ego'.... Henceforth, whatever intuitive insights were proposed by the scientific fraternity, were ridiculed and rejected out of hand by other scientists....

Because of such a mental climate, the pendulum of the search for 'Truth' swung exclusively towards a constant belief in reason and logic... thus imprisoning the human intellect in materialism as it sought answers about the origins of life and existence.... It is therefore absolutely necessary for me to refute some of the 'scientific theories', and to show that they are as erroneous, as the so-called 'truths' of Christian Doctrine.... In arriving at some of these 'theories,' both scientists and churchmen, have gone into the realms of absurd unproved suppositions, to answer questions which previously could not be answered by the earthly mind alone..... Having told you that the substance of your material

world is basically composed of electrical particles, agitated at great speed within space'... your science is unable to explain to you 'why' such particles of energy take on the form and density of 'matter', except that it speaks of fusion forces that happen to create the elements...

Science cannot tell you, what is the Motive Force that attracts the particles that form the elements... Nor can science explain to you, where such particles of energy come from, except to say that they were released during the time of the Big Bang, which, they believe... gave the first impetus to creation!...

Why a sudden 'Big Bang'... From what... What was the Driving Factor behind it? behind it?.... Science talks about electromagnetism, but cannot say where such energies come from... that appear and disappear.... Where do they go... Why do they come back?.... From the human perspective, there seems to be no intelligible activity within or behind their work....

Science says that electromagnetism 'just is' - a simple fact of existence - yet it produces a highly intelligent and intentional work in the form of millions of billions of substances of which your universe is made.... How does that happen?.... There is nothing that electromagnetism has made visible, that the human mind can consider to be devoid of purpose or meaning.... Science ignores this most basic and vital level of creation.... Without an answer to this question: Why does everything that has been brought into visible manifestation through the activity of the twin energies of electromagnetism... always have purpose... succeed... and be rational?... Nothing of value will be discovered in the search for your origins, until science can prove and discover the 'Reality' of the 'space' in which the electrical particles of 'visible being' are supported....

electric particles of the 'visible being' are supported.... Science will always remain behind the closed doors of materialism.... It will be locked to eternal Truth and universal wisdom... and locked within the bondage of reason - "reason which is only the product of the finite activity of the brain cells"... It is the true nature of SPACE, which I wish to present to you!.... But before proceeding, I must first bring to your attention, many very pertinent questions. Throughout the ages, much of the work of electromagnetism, has appeared to the mind, vision and touch of living entities, as solid.... ...enduringly durable!... "Metals, wood, rocks, living entities...were all believed to be composed of solid, inanimate or living 'matter'...".... With such a belief in a solid universe... it is natural that the mystical prophets of old, should have conceived of a 'Mighty Individual'... who possessed enormous powers to create all the solid substances of the universe.... In visualising such a 'Mighty Individual', it was natural for them to perceive a 'Majestic' figure of universal control... who possessed a retributive nature in confronting the behaviour of humanity, which had produced a turbulent society... "Neither the prophets of antiquity, nor the science of today... have approached the Truth of Existence!... None have hit upon the Truth!"...

Science says... that life began when, in some inexplicable way, the right combination of chemical reactions produced a molecule capable of making copies of itself by triggering further chemical reactions!... Such a description of the enormous and overflowing complexity and power of the FORCE of LIFE as discernible because it is 'capable of self-replication'... reveals the basic impoverishment of scientific perception and thought that produced such a theory!...

What is more... the suggestion that such a combination of inanimate chemical elements could come together in a specific way - by chance - to produce such an astonishing self-replicating result, remains scientifically unchallenged... This is because the finite human mind, however scientific, cannot handle such a strange 'self-doubling' event without it having a beginning.... It is too suggestive of a magical event - of some intervention from an unimaginable source, which no scientist dares to contemplate for fear of being ridiculed...

This lamb-like acceptance is considered to be more scientific than producing 'inspired' theories which are

'inspired' theories, which are blocked by the materialistic laws which science has established for itself.... This blockage to future scientific progress will prevent science from properly investigating the realm of mind and spirit until some enlightened scientist defies convention... and dares to cross the boundary between 'the seen and the unseen'....

If the prophets of old had been presented with the theory of molecular self-doubling, they would have no difficulty with such a magical happening, and would say that God made the combinations and imbued them with life.... But this would not be the right explanation either.... This ancient religious concept, of a 'God on high'... 'creating from afar'... is what blocks the man of science from going forward to more spiritually conscious reflections....

Therefore, in spite of the apparent emancipation of science from the old doctrines, it is still as bound as ever to the old doctrines.

doctrines, it is still as mentally bound, and as obstructed by the fears of the old prohibitions, as in the nineteenth century.... Their ridiculous theories are adopted because the 'Reality' of Our Source of Being, behind and within the living molecule, has not yet been perceived....

Following its creation story, science asserts that after the 'self-manufacture' of living molecules, capable of duplicating themselves... by 'forming' a living cell (so small that it cannot be seen with the naked eye) it became the basic building block of the whole multi-complexity of living organisms, including plants, insects, reptiles, birds, animals and man himself...

man himself... So all living things have a common ancestor - "the first living molecule"... Science cannot explain why self-duplicating molecules combine to form a living cell.... It remains a mystery to science to this day... The living cell, science says, endlessly repeats itself in a trillion trillions of trillions of trillions of different forms... It is the basis of the visible universe... How is that... What impulse motivates such repetition? Science cannot say... Rooted in its own blindness, it has dragged people down with it... to materialistic blindness...

And now - the first living cell, deserves the full attention of anyone who is seriously seeking the spiritual dimension, and the 'Prime Cause of Existence' - because the first living molecule, and the first living cell... are the very first evidence of some inteligente activity within 'matter' - within the universe...

The first feature that demonstrates sanity and sensitivity, is the function of the membrane, which covers the cell, giving it protection and individuality... Think of this 'miraculous' phenomenon!... The cell absorbs from the environment, only the selected food through the membrane... Not only does it absorb the right food, but - after using the nutrition - the cell eliminates the waste through the permeable membrane...

You must ask yourself... how can the purely physical part of the cell membrane - invisible to the naked eye - "distinguish and select" the right food to enhance its well-being and then exercise sufficient discernment to get rid of the unwanted toxic matter.... do you not see a high degree of purpose in all this activity... and can you believe that such purpose is incidental?.... And is not PURPOSE the very hallmark of Intelligence?....

Not only this... the cell membrane, still doing this work of selecting food and getting rid of toxic matter, in a trillion trillion trillion different circumstances and conditions, related to the survival of different species and in diverse environments?

Isn't this evidence of the PURPOSE that is displayed within every action of every species, be it insects, plants, reptiles, birds, animals, and humans?

Could not the universe be described as the consistent and constant IMPULSE of the

PURPOSE, made visible within the realm of visible 'matter'?...Is the spirit of PURPOSE...a physical element - or one of 'CONSCIOUSNESS'?...Is the spirit of PURPOSE...a physical element - or one of 'CONSCIOUSNESS'?... And if you can accept that PURPOSE is an irrefutable impulse of creativity behind EXISTENCE, then you can understand the following insight, that your universe is the visible manifestation of an 'INTELLIGENT EVALUATION of cause and effect', clearly evident within living 'matter'.... For if the living cell, can select the correct food and also eliminate toxic waste - this simple activity, shows an awareness of the need for assimilation, and also that of anticipating the resulting accumulation of toxic waste... and the need for elimination of such waste, to ensure the continued health of the cell....

Is this not a clear indication of an INTELLIGENT EVALUATION of 'Cause and Effect'?.... What's more... Science says, that the cell contains a 'nucleus' which could be compared to the human brain, since it transmits messages... and its most important function is that of information storage... The 'memory' that contains, not only the details that relate to a cell, but those of the entire body in which it resides!....

The fact is, that in investigating the cell, science has discovered that it appears to be itself a system of chemical 'messages'... carried out in a purposeful, intelligent and intelligible manner.... How could this happen if the origins of the molecules of the cell were simply inanimate chemical elements...?

Would you argue that behind every 'messenger with a message to convey' there is intelligent thought or consciousness?... And look how precisely messages are transferred from cell to cell to ensure the precise repetition of certain species over millions of years!....

species over millions of years!...

At what point, then, did 'consciousness' enter living organisms?... Y...

How did intelligent thought, which considers and decides, enter into the field of unconscious inanimate matter?...

Without inherent consciousness... how can so much informing and informing activity

informing activity occur in a cell that is invisible to the naked eye?....

Isn't such activity the product of consciousness/awareness, demonstrating the presence of 'intelligent' life at its lowest denominator?....

Furthermore, a single living cell in the form of bacteria, can move alone around... and live its own often specialised and exciting life, within the environment... or

as a virus carrying out its deadly work, specialised in attacking its specific targets within living organisms...

On the other hand, the cell may be fixed in an organism, carrying out its own highly important work of building and maintaining some part of the organism.... Such work produces 'living matter' justly suited to - and necessary for - the living organ on which it works.... - be it parts of the human body ... or of animal or vegetable life ... such as the toes of the human toe and the spleen ... or the animal skin and the fangs ... or the scales of the fish and the plumage of the birds ... or the bark of the tree and the leaves on the branches ... or the petals of the tree and the leaves on the branches ... or the petals of the tree and the leaves on the branches or the petals and stems of flowers... or the antennae of butterflies and their diaphanous wings... or the reptilian skin of crocodiles and their teeth... or the eyes of the squid, which change colour according to their need for camouflage... Each of these completely diverse and seemingly unrelated physical phenomena is created by the individualised specialised work of billions and billions and billions of identical living cells....

When contemplating the magnitude and diversity of the work accomplished by a single living cell - invisible to the naked eye - is it possible to believe in a mechanistic universe?

It would be likely to do this, if the matter produced by such cells were illogical... that it offered no plausible purpose behind it, no reason for its existence - devoid of personal consciousness... But this is not so... These living, identical cells... work together in harmony, within man or animal... to make a liver with its multiple duties within the body... to create an intricate eye, which has its own specific purposes, to bring the entity into direct and intelligent contact with its environment... incorporating the aid of the brain or strong bones, expressly and intricately designed in conjunction with tendons and muscles, to join with others, so conveniently... as to allow the full and agile movement of the entity...What's more... Cells never interfere with each other's work!... In creating a kidney, they do not suddenly make an ear!... In creating hair, they do not suddenly launch into making skin!... No!... cells create the scalp, and the cells themselves create the hair.... The only difference, between skin cells and hair cells... is the work they do, second after second, during a lifetime... Why... What is the 'Motivating and Inspiring Factor'... Accident... What organising intelligence, set the whole process of creation in motion... from the most fundamental level of the formation of simple elements, from free electrical particles within 'space'... the combination of elements to form chemicals... the correct combination of specific chemicals... the right combination of specific chemicals to form a living molecule... the right combination of living molecules to make a living cell that can take in nutrition, excrete waste, build to clear specifications, move about... and sustain consistently, this huge edifice of creation, over billions of years.... Not only this, but what is the 'Motivating Force that has designed and managed to evolve within living systems and living entities, billions and billions of different ways of fertilising seeds of all kinds - be they those of plants, insects, reptiles, birds, animals or human beings..... evolving for each, an intelligent system of procreation suited to the climatic conditions, and the production of vegetation in the environment, in order to ensure survival... Is not SURVIVAL... also evidence

of purposeful intelligent activity?.... And as this great feat of creativity comes to fruition, shouldn't you ask... how is it that each living species has its own individual way of raising its offspring and protecting it as much as possible, until it is able to SURVIVE on its own?... Isn't that an active LOVE OF CREATION in its highest form?

is that not active LOVE FOR CREATION in its highest form?....

One cannot leave this analysis, of what human intelligence has to say about the origins of life and creativity, without mentioning 'the all-important DNA molecules', - which are said to carry the blueprint of the whole organism - of the plant or the baby.... Moreover, these DNA molecules give the instructions to the cells, informing them to build according to the chromosomes deposited by the seed...

Yes, indeed... instead of Intelligence - science has given you the DNA molecules as your source of existence... your supreme leader... your director of creation... upon which the flimsy cells of matter and all creation must depend for their survival... Behold the glorious DNA - Lord of your creation!... Where did the DNA cells get their intelligent directional powers?... Science is already fully satisfied that it has been able to satisfactorily explain why the various species of all kinds duplicate themselves with such precision and consistency.... Science wants you to believe that you live in a purely mechanistic universe... That the phenomenon of evolution arises purely from chance mutations... and from the 'law of the fittest'... If you study the diverse organisms of creation, the multiple and diverse activities of related species... can you really believe in such an implausible materialistic concept? It is no mere coincidence that today, in order for you to discover the immense Intelligence behind creation, you have numerous creative people, who undertake difficult journeys to explore, determine and photograph the habitats of wild creatures and wild plants.... You are entertained - and instructed - by a feast of facts and photographs of the wonders of your universe... During my time on earth, I had no such wonders to refer to, to teach the Jews the Universal Truth of Existence.... I had only the domestic animals and birds to use as examples of the marvellous inventiveness, intelligence and clear consciousness in every living thing.... Nowhere in the Gospel is it written that I referred to the High and Mighty Jehovah as Creator... as was the custom of the Jewish Leaders... No... I turned to the field, the flowers and the birds, and sought to teach my countrymen, that they were surrounded by a miraculous and wondrous creation ... Two thousand years ago, in your dimension, we lacked your modern scientific background, to be able to observe and explain in an intelligent way, the activity of what I called the 'Father' all around you... To discover your true SOURCE of BEING, I ask you to evaluate the unimaginable and indescribable complexity, diversity, and purposefulness of the work clearly evident in penguins and pigs... Can the human mind replicate any of the most basic activities in - say - the digestive system, which rapidly assembles the required enzymes and hormones necessary for digestion?... How dare the finite mind being unable to perceive with clarity, the true creative process governed by instinctual knowledge, dare to assert unequivocally - in defiance of all contradiction - that it understands the true origins of creation and the forces from which creation took form?... What arrogance!..... These men can only think, as their eyes tell them.... I view the present scientific ignorance, with loving compassion... with a degree of amusement and a great consuming passion to pierce their pride.... For until

someone can question their self-sufficiency and their position of infallibility, a true marriage between Eternal Truths and human scientific knowledge can never be achieved.... But it must be achieved.... Otherwise human spiritual evolution will be paralysed..... The scientific mind, is too full of 'limiting' concepts bequeathed in books, accepted formulas and equations, and the need for peer approval to allow no penetration of Higher Intelligences.... I ask the readers of these Letters... to form a partnership on my behalf to challenge Science and to ask... At what point in the evolution of the 'material world' is CONSCIOUSNESS first distinguished'?...

I repeat and I mean it: Ask the scientist: "At what moment in the evolution of the world is CONSCIOUSNESS

of the world, is 'consciousness' perceived for the first time?... In the living cell?.... If it was in the living cell, ask if it was perceptible in the living molecules that combined to make the cell and encased in the cleverly designed membrane that allowed the consumption of selected food and the disposal of toxic waste? How does it recognise toxic waste...? And if it can be conceded that consciousness could be present in living molecules... should you not ask, whether the chemical properties that became a living molecule, might not have had the 'consciousness' that ultimately propelled and propelled them into a living combination to make a molecule?...And having gone back to this point in the origins of existence - the chemical properties - you must still ask.... why should consciousness be made a viable presence, only within chemicals - why not in the elements in which individuality first took form?.... And if in the elements, why should it be denied that 'consciousness' propelled the electrical particles to form the elements... Is it rational to deny such a possibility?...And having arrived at such a possibility... should you not go further, and ask from whence electromagnetism comes?...What is the 'reality' of electricity, more than mere intense rays of light already described by science as photons and electrons?...And what is the 'reality' of magnetism, more than mere dual energies of binding and rejection - impulses of energy that have brought stability and order out of chaos?.... Ask Science: Where does electromagnetism, which is responsible for the most basic steps in the creation of an organised and ordered universe of impossible to imagine complexity and diversity, come from?.... I will try now... to explain in your words THAT WHICH is beyond words... and at this moment beyond all 'individualised earthly understanding'... So, while the intellect helps the brain to intellectually comprehend the spiritual realities I am exposing to you, it also creates a barrier to true spiritual perception and experience... For this reason, consider references to the MAXIMUM UNIVERSAL DIMENSION... as mere guidance - ideas... glimpses of 'undefined forms of consciousness' of the REALITY behind and within your universe...(Take each idea - one by one - into meditation)... What I am about to explain, is entirely within consciousness... and it is of CONSCIOUSNESS without parameters or boundaries... If you are spiritually evolved enough to follow me there, beyond the words, you will begin to 'spiritually' understand all that I am trying to tell you... The words will guide you to new 'horizons of being' and then reveal them to you... Persevere!... The LIGHT... imperceptibly... gradually perhaps, will penetrate your mind and you will have little flashes of inner vision.... There are many who have experienced a small 'burst of inner vision', who have briefly felt a touch of the 'Divine Consciousness' and then, almost not daring to continue believing in such a transcendent moment of their

awakening... have begun to question, doubt... and finally disperse the small influx of 'Divine Consciousness'...

Beware, do not do this! Unbelief will slow you down, it will entangle you on the plane of material existence more than you can imagine.... Whatever you are given, and may receive - stand firm and doubt not.... Doubt destroys steady progress, for it creates its own 'forms of consciousness', which will suppress and even eradicate the inner vision you have gained before.... Therefore, your choice of thoughts, - conviction or disbelief, doubt or faith - builds or destroys your progress in your search for TRUTH....

Any denial erases from your consciousness the progress you have made.... Moreover, the higher you ascend in spiritual truth, the more powerful your thoughts become.....

your thoughts become... Therefore, create your own spiritual momentum, and stand firm in it, and allow no one to intrude and undermine that momentum.... Stand firm in your former perceptions..... In times of doubt, walk peacefully with positive thoughts... using enlightening affirmations, and adhering to previous inspirational guidance, when the vibration of your consciousness frequencies was higher... By the use of your will power, choose affirmations that contain "gold bars" of spiritual Truth... and return to this higher level of consciousness again and again... Do not totally surrender to the ebb and flow of the spiritual energies of consciousness out of mental laziness, nor become a spiritual up-and-down.... I cannot emphasise this danger of self-obstruction enough!....

Become actively conscious of it!.... If you know anything of the narratives of my life in Palestine, you will remember that I too suffered from the phenomenon of the ups and downs of spiritual consciousness... and that it was necessary for me to absent myself into the hills, to pray, meditate and renew my spiritual strength....

Therefore, understand your dry spells... but do not open the way to them by passively surrendering to undesirable change in your attitudes and mental/emotional patterns!.... As you consciously turn to your Source of Being for new strength and for the raising of the frequencies of your consciousness, then these negative phases will be greatly reduced in strength and in duration.... I repeat, at all times be careful how you use your mind! Let your mental activity always be constructive... so that it may contribute to your own spiritual growth... and not be your continual hindrance!...

As I said all of the above... and proceeded to dictate the remainder of this LETTER... the Channel began to question its possible public acceptance, because of my words, because they seemed too pragmatic, to appeal to people used to imagining a magnificent Power, or Being, or 'Something Totally Different' that created the universe.

Indeed, I have made numerous efforts to describe the immensity of the Power from which all things have been made!... but as I said "it is impossible for me to describe in human terms the Reality of the SOURCE of your BEING"!... Those spiritually evolved souls, who have been lightly infused with Divine Consciousness, report that the experience is fully beautiful and glorious... and entirely unforgettable, though not yet fully describable in human terms...

This mystical experience is possible when the vibratory frequencies of the mind are already high, and the consciousness is

is already high, and the entire consciousness is flooded with rays of Divine Consciousness.... It is a condition that involves the 'feelings' rather than the intellect and brain cells....

In this case, in which I have to infuse the mind and the brain cells of my channel... with a description of the Reality of your SOURCE of BEING, and she has to interpret it in words, I have to be careful not to interfere too strongly with the vibratory frequencies of consciousness, in which the brain cells of my channel are working.... There were times when it was dangerous to go on, so I interrupted the operation of your computer to break contact....

Before you start studying, meditating and absorbing these pages... I want to make it clear to all those who read these LETTERS, that my purpose in coming through them is, first of all, to dispel the myths with which my human person and my teachings have been shrouded!... "It is my intention that religious dogma and doctrines, finally die a natural death throughout the world - as completely as the animal sacrifices in Solomon's Temple were done away with"... Secondly... I have also come to help the churches to let go of their archaic notions of 'God' and sin!... "No true spiritual progress is possible until the dawn of a clear understanding begins to break that each person is responsible for the way his life unfolds"... Thirdly... "I have come to remove from minds the images of an "Omnipotent God"... of magnificence, grandeur and limitless active power... who rewards the virtuous! who rewards the virtuous and punishes the 'wicked'!..."... These beliefs are totally erroneous - though comforting.... Fourthly... "I am explaining the Truth of Being, to finally dispel the old concept of a 'God' sitting up high somewhere in the sky"... where He is said to have created the world and everything in it in a relatively short time... Fifthly... "I have come expressly, to help Science bridge the gulf between UNIVERSAL CONSCIOUSNESS and the emergence of electrical particles.... Without this bridge, between the invisible spiritual dimension and the visible world of matter, science will remain paralysed in the old ideas and concepts, instead of moving forward into new realms of spiritual/scientific research... for the betterment of humanity..."... I have also come... "To show you the TRUE NATURE of... "THAT"... THAT MADE YOU TO BE... that gave you your INDIVIDUALITY... For, without this knowledge, which will reveal to you the 'nature' of your 'dual, but totally interrelated' being... of Spirit and body... you too will remain

I want to make it absolutely clear that: 'Nothing ever comes from Nothing'....

This is a well-known saying among you... and it is absolutely true... Nevertheless, there is a FOUNDATION of BEING... Eternal, Infinite and Consistent... and THIS is what I am going to reveal to you!... You have not been 'created'! You have drawn your 'Being' from IT! Evidently... You could not have come out of something totally foreign to your own consciousness!....

I'm asking my Channel to pick out some intelligible mundane examples: "You couldn't take a muffin filling out of a vat of molasses... and find out it was mincemeat". "You couldn't squeeze an orange... and make ginger beer out of the juice." "You couldn't fill a balloon with air... pop it... and find jelly dripping out". All of the above examples, chosen by my Channel... are cases of logic... I want you to realise, that the entire universe is a manifestation of logic, and consistent logical effects, arising from related causes.... Your universe is CAUSE and EFFECT made visible! This is an unalterable principle of existence!

If there are examples of disturbances, such as paranormal experiences or instantaneous healings... the average person exclaims in astonishment and science refuses to believe that such a thing is possible... As my explanation deepens, you will eventually understand how such disturbances happen - in a logical and effective manner... In other words, these alterations occur according to natural spiritual laws... and they always serve a necessary purpose... There is nothing meaningless anywhere in creation - not even in the ant or the mosquito - unless an entity's mind was born defective or damaged!... So it is clear: You live and operate in a physical universe, which displays the highest degree of intelligence and activity, with purpose within the creation of 'matter' itself... in the physical bodies of all individual entities, from planets to human beings... Unfortunately, this high degree of INTELLIGENCE and CARING PURPOSE... is only minimally displayed in consciousness by the created entities themselves, from plants to humans... In other words, the BODY in which you conduct your life, in which you think, feel and do as you please, manifests within its physical organs and in its functioning, a degree of intelligence and loving purpose, far higher than your human consciousness... Human interests are primarily involved in the problems of personal daily survival, the enjoyment of pleasures, and physical/emotional satisfaction.... To achieve those purposes, most people use the products made of 'matter'....

Even the minds of scientists cannot fully unravel the hidden secrets of earthly existence and, despite their scientific knowledge, are as bogged down in the changing fortunes of existence as those who have no knowledge.... Therefore, it is a logical conclusion that: 'THAT' from which you have drawn your physical being, is IMMENSE, - not only of size, - but an IMMENSE of WILL-FORCE: "The Will to self-expression and creativity".... Visualise, for a moment... - the size of the material universe... the SUN and its heat... the Moon... the planet earth and the solar system... the galaxies of stars... and the fact that all this visible matter, is totally interdependent... yet also dependent upon the motion of planetary bodies and subject to the Universal Laws of consistent function and motion... "This vast universe had its origins within - and has been drawn from - the FOUNDATION of your BEING - and the whole of the FORCE/ENERGY of the LIFE of the universe, has come out of the very FOUNDATION of BEING"... Therefore, do not be discouraged if in my efforts to analyze for you the SPIRITUAL COMPONENTS of the SOURCE of YOUR BEING, you see that you recognize what these components are and.... to a very, very limited extent ... that you possess the same spiritual components of consciousness yourself ... "You have taken all that you are - spiritually, mentally, emotionally and physically, from your SOURCE of SELF".... Before I explain how this could be... I want you to take certain steps, "to help your mind absorb the immensity of... THAT... from which your being comes..."... After reading the next few pages, to the end of my LETTER, "take each paragraph individually into meditation and visualisation"... for only then will the words begin to grow in understanding, and to acquire the spiritual reality of their true meaning... EVERYTHING (spiritual, invisible/visible/visible/imagined) is CONSCIOUSNESS/ KNOWING! "The principal comprehensive nature of CONSCIOUSNESS... is KNOWING". "It is not possible to have consciousness, without possessing knowledge". "Everything you see, everything you touch, hear, feel, know.... CONSCIOUSNESS/KNOWLEDGE made visible". "There is nothing in the universe that is not CONSCIOUSNESS made visible".

"CONSCIOUSNESS/KNOWLEDGE is infinite and eternal" "There are two DIMENSIONS of CONSCIOUSNESS, both beyond and within your own earthly plane of existence - the plane of heavy 'matter', of 'solid form'..." "The MAXIMUM UNIVERSAL DIMENSION of CONSCIOUSNESS/KNOWLEDGE can never be fully or truly known by an individualised spirit." IT IS INACCESSIBLE... IT IS IN BALANCE! "It is the ONLY SOURCE of all POWER, WISDOM, LOVE, INTELLIGENCE" The UNIVERSAL DIMENSION of CONSCIOUSNESS/KNOWLEDGE in balance.... "is a state of SILENCE and QUIETNESS, from which comes forth sound, colour, individualised form... and all visible creativity that is within the visible universe"... From the MAXIMUM UNIVERSAL DIMENSION of CONSCIOUSNESS/KNOWLEDGE in equilibrium, has come forth all creation!...all the various invisible dimensions of existence... descending in the order of spirituality from the very portals of the UNIVERSAL DIMENSION... down to the most powerful vibrating frequencies of earthly inanimate substances... and beyond... to the unspeakable horrors of perversions of consciousness and anti-Truth!...

This MAXIMUM UNIVERSAL DIMENSION of CONSCIOUSNESS and KNOWLEDGE...,

is not only in space... IT IS ALL OF SPACE IT!!!... It is imperceptibly everywhere!... For those who think in terms of the

atom - it can be said that "IT" is the SPACE in the atom - therefore... "IT is 'in silence and equilibrium' within the 'space' of all elements and 'matter'..." The NATURE of UNIVERSAL CONSCIOUSNESS is: "INTENTION inactive and in equilibrium".therefore, Universal Consciousness is a state of "POWERFUL INTENTION, infinite, eternal, limitless, boundless, unbounded, pristine, pure, beautiful"...This intention is to EXPRESS ITS NATURE. "THE INTENT of the NATURE of UNIVERSAL CONSCIOUSNESS... is the TOTALITY of WILL and PURPOSE, always united in an 'embrace'..." "The Universal Will is: To go forth and to Create" .

The Universal Purpose is: "To individually shape and experience creation" Within the MAXIMUM UNIVERSAL DIMENSION of the INTENT of CONSCIOUSNESS/KNOWLEDGE... the UNIVERSAL WILL is in a state of mutual restraint - with the UNIVERSAL PURPOSE both in perfect balance... of SILENCE and QUIETNESS... The UNIVERSAL WILL is UNIVERSAL INTELLIGENCE The UNIVERSAL PURPOSE is UNIVERSAL LOVE... Universally in equilibrium - in mutual restraint of WHICH all things visible and invisible, and all human impulses, have taken form.... If you could receive the fullness of UNIVERSAL REALITY, within yourself ... "you would be disintegrated by HIS explosive power... and dissolved into formless consciousness/knowledge"...IT transcends individualised humanity, as much as the heat and light of your sun, is billions of times more potent than the light of your fireflies, flickering in the darkness.... When I was on earth, I made a distinction between "Your Father who is in Heaven" and "Your Father who is within You"!... When I spoke of "Your Father who is in Heaven"... I meant UNIVERSAL INTELLIGENCE!...

Because of the attitude of the Jews towards women, I only referred to this aspect of UNIVERSAL CONSCIOUSNESS!...Today, to you who are so conscious of the equality of the genders, I speak of: "FATHER - MOTHER - CONSCIOUSNESS".... In balance within UNIVERSAL CONSCIOUSNESS/KNOWLEDGE...where, "Father - Consciousness - is -

Universal Intelligence" "Mother Consciousness - is - Universal Love"...The TOOLS of "Father Consciousness" creative energy - electricity...is in a state of mutual restraint - in balance with the TOOLS of "MOTHER CONSCIOUSNESS" creative energy - magnetism.... Because the tools of the "FATHER - MOTHER"... electro-magnetism, are in balance within the UNIVERSAL CONSCIOUSNESS... "IT" will never be detected by scientists in SPACE, no matter how much they probe space... The IMPULSE: "Father Consciousness WILL" is INTELLIGENT ACTIVITY...in balance with The IMPULSE: "Mother Consciousness PURPOSE"...which is to NURTURE for "FATHER - MOTHER CONSCIOUSNESS" SURVIVAL... It is a powerful impersonal FORCE - though IT is personal to you, even before you seek to make contact with "IT"!.... As you evolve spiritually you will feel IT, for "IT" is the REALITY of SELF.... IT IS everywhere and within everything... "FATHER CONSCIOUSNESS", is the INTELLIGENT LOVE that provides intelligent energy and momentum to the world of complex forms - physically expressed as electricity.... "MOTHER PURPOSE", is the LOVING INTELLIGENCE, which provides purpose and the drive for survival, to individualised complex forms - expressed as magnetism - adhesion and rejection...These are the ORIGINAL UNIVERSAL IMPULSES of ALL BEING...of UNIVERSAL CONSCIOUSNESS...your SOURCE OF BEING - INTELLIGENCE - LOVE.... This is the STATE OF BEING before creation. CONSCIOUSNESS/KNOWLEDGE in a STATE of BALANCE.

"I want you to enter again into an inner state of conscious balance, where all thought is silenced and your mind resides in silence"... "You are in inner control, your mind and emotions are no longer divided into activity and feeling.... You may notice an increase of power within you, strength, peace and contentment...Or of the BEING from which creation came...".... "I want you to notice that equilibrium is impossible, the moment thought is introduced"... "I want you to REALISE, that the UNIVERSAL DIMENSION is a DIMENSION of formless IMPULSES.... It contains no blueprint of creation.... It is in a state of NON-DIVIDED FORM"...The balance - the restraint between the opposing IMPULSES - 'to move' and remain united, creates an infinite spiral of self-contained energy...The SELF-CONTENTED ENERGY of MUTUAL REFRENCHMENT, is such, that it cannot even be imagined by individuality.... As I have told you before, if individuality could enter into the UNIVERSAL DIMENSION of MUTUALLY REFRENCHED IMPULSES... of 'Movement and Adherence' - individuality would be dissolved at once, and returned to the equilibrium of UNIVERSAL CONSCIOUSNESS... Reflect upon the unimaginable immensity of the Power contained within the MUTUAL REFRENCHMENT of the TWIN IMPULSES in UNIVERSAL CONSCIOUSNESS, which are primarily CONSCIOUSNESS /KNOWLEDGE - INTENTION - WILL - the SELF - to - THE SELF - from THE SELF ...
