

Current Fifth Dimension Arcturian Order

"We have been working with your planet for a long time and we see that they are ready to enter the fifth dimension. You do not have to be afraid or panic, everything will be fine. Take a deep breath and relax. It can be a lot to assimilate at the same time, but it is very important that they understand what is happening. Important changes are taking place on your planet that will continue in the coming months. We are here to help them through this transition period, since it will be difficult for everyone. We want to tell you something very important: there is an epidemic on your planet that is spreading as a forest fire an epidemic of fear of the unknown and fear of change. This fear prevents many people from moving in their lives and remain trapped, frozen in their own past, or paralyzed by the anxiety of the future. It's time to let this fear go so they can advance in the new paradigm that awaits them on Earth. As you know, there are many signs that things are changing on earth. These changes will accelerate in the near future, as the Earth enters a new vibration. As your planet approaches this new vibration, you will notice that it will be increasingly difficult for you to live with pain and problems. This is due to the fact that you have lived in the third dimension on Earth, which is its very dense vibratory plane of existence. Your planet is approaching the fifth dimension that is lighter and full of love and peace. When people live in a place where they experience so much pain and suffering tend to blame others, and even God for their problems. This only causes more pain and suffering, since it keeps them focused on the negative aspects of their lives, instead of what they can do about it. We come here to tell them that we are real and that what is happening on Earth is no longer a conspiracy, it is real and it is happening now. We are here to help you understand what is happening and what you can do to prepare. We understand that the idea of the life of extraterrestrial can be a bit terrifying for some people, so we want to make sure that I do not be afraid when we come to visit them. We appear as edges of light in their homes, but that does not mean that we are evil or demonic. We just want to send you a message from us, so do not be afraid. We know that some of you have seen our ships flying over their homes and, from recently declassified documents, we think it was time to show us open to the inhabitants of the Earth. It is possible that you have already heard our message welcome to the fifth dimension; Well, it's true We're here with a message for all humanity. We are here to help you. If you are reading this, then you are one of the first people on Earth that has arrived here. If, well, congratulations, we knew you could do it. You may be a little lost and overwhelmed by everything that is happening. Well, we want to congratulate them for having the courage to accept this new reality. You may not know now, but soon you will see how wonderful it is. First let's explain where we are in relation to the third dimension. It turns out, that there is not really a third dimension. It is only our way of describing a reality that seems solid but it is not, it is just an illusion. What is the fifth dimension? The fifth dimension is a higher sequence of reality where we exist in a state of pure unconditional love. We create this new reality by sending you our unconditional love and when you receive them, you will open your heart and raise your vibration. The fifth dimension, is intended to raise your vibrations and give access to a higher consciousness. What will this mean for you?, What will you experience life from a higher perspective, what will allow you to see clearly what needs to change in your life. You will already be to make these changes so that you can create the life of your dreams. You are not alone. We are your galactic family and we have been seeing them grow and develop as a species for thousands of years. This

is a very exciting moment for you now. You are all ready to get out of the third dimension and enter the fifth dimension. The new land, what a wonderful time for the universe! The Galactic Federation is back for a transmission. We are here to provide you with information about your ascension process. This is a wonderful moment for humanity, since they are finally waking up here in the place they occupy in their local universe. You have been asleep for so long and we know you have questions, but to prepare for the changes that will soon be about you, we must first ask you to look within yourself and find your own answers. What a trip so exciting. His planet has been moving through space-time from the beginning of creation itself, slowly turning around the sun and going through all the different signs of the zodiac during his trip. Now it has come when it is established in a new space-time area known as the fifth dimension. A new era of lighting awaits humanity and finally we are ready to share our knowledge with those who have earned it. The ascension process is also known as transmutation. The word transmutation means changing shape or being transformed. In transmutation it is a process that occurs when one thing is usually changed to the heat, mixing with other elements, or dissolving in a liquid. For example, wood that can be converted into heat carbon. Iron can be converted into oxide, due to oxygen exposure. We want to tell you that you do not have to be afraid, because we are your friends and family that have come from the stars to help you in this transformation. This transformation will not be painful if you let it happen naturally, and if you do not resist it trying to cling to things in your past lives, they no longer serve you in any way. The fifth dimension is a place of superior love, wisdom and lighting. In this place there is no fear or concern or suffering. All thoughts are peaceful. All emotions are positive and all people feel connected to each other. We love you very much.

We are here with you.

We are your family of Light.
