

WE WORK IN A WAY YOU DON'T IMAGINE... ①

WORKERS OF LIGHT

<https://www.youtube.com/watch?v=EcCa8uCkr-A>

Welcome my dear beloved brothers and sisters:

Listen carefully and receive the following message with love: we are close to you, dear children of the Earth, to continue helping you, supporting you in this delicate stage of transition that you are all going through in many ways.

We have told you many times, we are close to you, very close to you. Of course you don't see us and that saddens many of you who want to see us, want to hug us too and want us to do something tangible on your Earth and in your Humanity.

It is good that you know and understand that we are in perpetual movement to help support Humanity at this time. It cannot be otherwise, because terrestrial Humanity alone would have reached its decadence and destruction.

So what are we doing to prevent this? We act in many ways: we meet with some of your government leaders, we contact scientists, we contact humans who are committed to saving the Earth, its Nature from destruction thanks to ecological movements. You will say... "Is that all you do?... "You do not stop the violence, the murders, the wars that continue or develop near Europe", Wow, dear brothers and sisters of the Earth! We can all read your thoughts, good or not so good. Currently we see them doubting, sad, misunderstood, and so on. Your positive thoughts create the positive in the Universe and your less positive thoughts create a blockage in the opening of Humanity to the beautiful and wonderful Light towards which you are heading despite everything you think. So despite your thoughts of doubt and above all the expectation of a visible action on the part of our Beings, we are working in a way that you cannot imagine. We are extremely numerous to act in multiple ways, as we have just said, from our ships very present in your sky but invisible. Why invisible? because simply if you saw our ships, a large part of Humanity would

be terrified. Why terror? Simply because a large number of humans do not want to believe in life beyond your earthly soil. For many of you only the Earth brings life, only the Earth is the "center of the universe". Yes, there are time and again old preconceived ideas that deny the possibility of the existence of other peoples in the Universe, however if these humans wanted to come out of their fears, of the false teachings, totally false, taught by generations and generations in schools, families, etc., would learn to know the Life beyond their small nearby field in their case.

Currently we are very happy to see that some humans speak of us as aliens, as you openly call us through your websites. We're very happy about that, even if it may scare some humans who don't want to hear about us. If these humans would put this fear aside, if they would agree to realize that everything they have been taught for a long time is false, totally false, they would be very happy to meet us. We just want that, to get to know you, but in this very delicate moment of transition that you are going through, it is important that we forgive you for not showing up. Only a few humans open to the knowledge that we exist and who want to know us, can see us and this is more and more. These humans are not afraid to see us and want to share their hearts and words with us. We love this, but humans are still not numerous enough, but they are increasing little by little. So coming back to help you, we can tell you that we are very, very busy. There is no time out for us as you say. Many of us share the tasks, we communicate strongly with each other to bring the best to the earthly human and to the Earth itself, because a large number of us also work to help. Even if you don't see us, we help you. We support you. We offer you energy flows of pure love and pure light. We are committed to the Source (Father-Mother GOD) to support the Earth and earthly Humanity to live the opening, the great opening of the spiritual path towards the new Earth.

Dear brothers and sisters of the Earth, have confidence in the Universe, in the Source (Father-Mother GOD) that cares for you, and have confidence in ourselves that we surround you with all our tenderness.

we love you

Blessings. We send you a good hug
strong and tight to each one of you
We are the Lightworkers
