Twenty (20 !!) years have passed since the destruction of the skyscrapers of the World Trade Center in New York, terrorist attacks on the Pentagon and other important US facilities. From that day on, the world began the countdown of the beginning of global tension and expectations of Global CHANGES ... All these years the countries of the World, each in its own way, have been preparing for these CHANGES. But not only the states, but also every feeling and thinking PERSON aspired to do something for the FUTURE, depending on their intellectual preparation and level of spiritual development. We, the members of the Civil International Committee of Intellectual and Spiritual Unity, were lucky, thanks to the Publishing House "Who is Who" (USA) and the Internet, to find each other in this difficult and complex World. We managed to find that common thing that unites all people on our planet, and to begin an active struggle for creative preparation for the upcoming CHANGES. Our guiding lines were Spiritual exploits and ascetic Activity of the 24 Metropolitan of Gothia and Kafa, Saint Ignatius, the inflexibility and political Wisdom of the Ataman of the Transdanubian Zaporizhzhya Sich and the Officer of the Azov Army Moisei Grigorievich Catholic, the honesty and staunchness of the Outstanding Intellectual Academician Sakharovych and Academician Grigoryevich New Ukraine Vyacheslav Maksimovich Chornovol and Hero of Ukraine Nadezhda Viktorovna Savchenko, as well as sincere sacrificial love for the People of the Great European from Spain Ignacio Echeverria, who was posthumously awarded the Academic Medal of St. Ignatius, Metropolitan of Gothia and Kafa in 2017. We were deeply aware of the historical laws formulated a hundred years ago by the outstanding sociologist of America and Russia Pitirim Aleksandrovich Sorokin "about the liberation of the individual and the growth of its value", which includes "the law of individualization of the individual," other social groups ", " the patterns of growth of the inalienable rights of the individual ", the pattern of " the transformation of the individual into an end in itself, in relation to which everything is a means ". Therefore, all these years we have strived to sincerely morally support Honest and Sincere People in many countries of the World, addressing them with letters and initiatives on the most pressing problems of the development of HUMANITY. Of course, first of all, these were the Leaders of the most active and innovative economy in the World - the United States, given its vanguard role not only for industrially developed countries, but for all UN states. We raised many of the most important issues of socio-economic development before Presidents George W. Bush, Barack Obama, Ronald Reagan, and today we strive to objectively assess the initiatives of J. Biden, probably one of the most experienced leaders of the world economy. The problems of optimizing intellectual and spiritual growth were raised by us before the Pope John Paul II, Benedict 16, Pope Francis, whose active, purposeful activity in a pandemic is of particular importance for Mankind, and not only for Christians. But we believed and believe that it is important to address the broad international community and associations of scientists with rational ideas and proposals, which we have been implementing since 2003. There is no point in listing all our, even the most important, initiatives in this appeal, because all of them are set out in documents on the electronic resources of the Civil International Committee (<https://cic-wsc.org> [@DrPhDprof](https://twitter.com/CICWSCI)). But to pay attention to one of the latest initiatives - to the proposal to create the International Association of Owners of Home Garden Ecological Micro-farms under the World Food Program, which was born in the last four years of our work with the 91-year-old Cossack agronomist Petr Vasilyevich Pushko, thanks to the support of the National Academy of Agrarian Sciences of Ukraine ecological agricultural project P.V. Pushko and the decision of the Royal

Swedish Academy of Sciences to award the Nobel Prize in 2020 to the World Food Program - REQUIRED. Therefore, we are addressing the Appeal to the leadership of the world economy and all public international organizations. In this initiative, as in the focus, all the positive results of the implementation of the laws "for the liberation of the individual and the growth of its value" (PA Sorokina) over the past 100 years, especially when we give an example of selfless activity over the past 30 years of an active owner ecological micro-farm. Pushko, who, in a wheelchair, continues to process 6 acres for the last three years and receive marketable products that are in demand (!!!). What a huge and positive STEP our Civilization took if it was able to create motivation for an elderly PERSON not to stop creative activity, despite a sharp decrease in their capacity 92 years of life in a wheelchair continues constructive work on the ground !!).

The entrepreneurial blueprint of 88-years Cossack-agriculturist Petra Vasilevicha Pushko http://kumpan-muller.ucoz.de/publ/the_entrepreneurial_blueprint_of_88_years_cossack_agriculturist_petra_vasilevicha_pushko/5-1-0-181

Somehow his attitude to life and work echoes the courage and understanding of natural laws of the Great European, a descendant of a noble Roman family Lucius Quinctius Cincinnatus, whom the Senate tore off the plow, appointing a dictator for 6 months, and who, having defeated the enemy army, after 16 days resigned from the duties of a dictator and returned to his plow and land. More than 2000 years have passed, and the desire to create what people really need determines the life position of the Great Europeans (!).

Today's LABOR for 92 years of life of the Cossack-Agronomist, Honorary Member of the Academic Council of the Institute for Economic and Sociocultural Research (successor of the DESMC of the Academy of Sciences of Ukraine and DFC) Petr Vasilyevich Pushko, who sincerely supports the Ukrainian state and its independence (fed his tomatoes to the soldiers of the Ukrainian army at border with DNERNuts), is the most significant result of the vitality of all real civilizational institutions, which with difficulty, but function in Eastern Europe. Namely, this example convinces of the possibility of an evolutionary transition to a democratic form of government throughout Eastern Europe without humanitarian disasters ... and other costs ...

Unlike all previous APPEALS, when we focused on several initiatives and proposals, today, on the threshold of grandiose CHANGE in the world, we ask the leaders of the world economy and the world community to support the creation of the International Association of Owners of Home Garden Ecological Micro-farms under the United Nations World Food Program.

It is necessary for all of us to concentrate our efforts on the fact that practically with any CHANGE will have a positive result.

Honorary chairman of Civil international Committee Intellectual and Spiritual Unity, Dr

Ernesto Garcia

**Chairman of Civil international Committee Intellectual and Spiritual Unity,
Vice- Chairman of the Azov's Department of The Academy of ES&E, Dr**

Alexander Vasiljev

The Vice-chairman of Civil international Committee Intellectual and Spiritual Unity,
