They consider our work like a good opportunity of SERVICE. Their page Web is ([www.lucistrust.org](http://www.lucistrust.org)). I dare to tell you that the contributed information and diffused by this NGO it is based on the ETERNAL WISDOM, base of all the RELIGIONS and therefore its knowledge enriches the religious and philosophical base of people with scientific mentality. NICHOLAS S. LAW  
Director General

Dear Sir,

I ask You to excuse me for a committed error in preparation of materials for the guidelines on behalf of the president - chairman Azov Department of AES and E, Dr Valery Vasiljev. This error is allowed only on my fault. Dr Ernesto Garcia still July 4, 2003 has writing: " Friends. I apologize you for not having expressed me correctly regarding you LUCIS TRUST (Foundation of the Light) which is not a person, but rather which is a non Government Organization (NGO), with Advisory Statute in the Economic and Social Council of the United Nations that like they say their statutes, this doesn't have affiliated, neither officials, but rather it is directed by altruistic people of

good will, and this has their headquarters in London, New York and Geneva ". Therefore responsibility for the guideline № 3 lies on me.

But after the letter 29.10.2003 Dr Ernesto Garcia I had idea. If the error is already made, it is necessary, that its correction was twice useful. You see my subconscious mind simply has not wanted to acquire the information, that « LUCIS TRUST (Foundation of the Light) which is not a person ... ». Why? Yes because all activity of organization LUCIS TRUST in Switzerland impresses of activity of the Outstanding Person for a representative of East Europe. It is connected that any organization in East Europe to some extent is customary regulates the person (often very much and very hardly). Only since 1968 the public international organizations have appeared in a world, in which one the Outstanding Persons can completely exhibit themselves. These public organizations on the part of the interested spectators are accepted as the Integral(single-piece) Outstanding Persons (psychologic feature of perception).

If in 1990 such organizations was very little, today them it is much more. The world Society (community) can today make a rating of these organizations on a degree of their positive effect on integration processes in a World. Each such organization is headed by the unordinary people and these organizations integrate the not indifferent people. A vivid example of such organization is LUCIS TRUST.

Therefore we ask to consider the guideline № 3 as the first guideline to the experts to consider a capability of an estimation of activity of all public international organization LUCIS TRUST (instead of its separate members) on actual increase of mutual understanding between the people. In the solution, probably, you can apart mark the chiefs of this organization.

With sincere respect

Alexander Vasiljev

P.S.

Dr Ernesto Garcia wrote to me 29.10.2003:
