In Unit 21 for the first time for last three hundred years in East Europe is open the problem on sources steep integrating all peoples of Europe intelligently - spiritual traditions is put. And a spring of these traditions we see in unified for all Europe the Gotha's base of a Civilization practically for all european peoples. Ukraine by preservation of the statehood in the beginning of new era (271) is obliged, just, this Great Historical People - to Gotha. But not only preservation of territory people of Ukraine are obliged the Gotha's soldiers, but deepest confessor, which one has received the most strong and steep momentum(pulse,impulse) after acceptance people of Ukraine of Christianity, as achievements in spiritual and intellectual(intelligent) growth(increase) of mankind from unique in Europe in that time of the megapolicy - Constantinople - per the first centuries distribution(propagation) of christian Teaching. Officially as date started of fissile activity of Christian Church in Ukraine it is possible to consider(count) 341, When in Constantinople Ulphila was had made in the Bishops of Gothey, but today it is known, that already on a Nicaean Cathedral per 325 there was a Bishop of Gothey. Also it has become known, that long before arianism per 256 years in Crimea was Christian, and St. Kliment, the first Roman Daddy, has completed the days in Inkerman (Crimea) in the first century of new era. What great HISTORY of actual Spiritual Growth(increase) have inherited we - Ukrainian People ! The centuries have passed and in the beginning of the Third Millenary the Historical TRUTH starts to reach our compatriots in Ukraine. And already «the First Russian Empire», generated(set up) on violence - Kiev's Russia, is not accepted as a beginning of statehood of Ukraine, and is accepted as a beginning of the tight and fissile scrambling of an European Civilization with armed barbarism. And in this scrambling the weighty word the German peoples and them Grandparents- Gotha have said, which one adequately have come in an ethnos and Ukrainian people and have given him features of highest confessor and biotic stability, but main - they have kept in Cossacks of feature of the Great Grandparents up to XXI centuries. How much political wisdom should be exhibited Ukrainian people, Cossacks - Gotha and Ecumenical Patriarches in Constantinople, that today has become possible(probable) to receive Ukraine in World-wide Trade Organization! Reduced in the Unit the material will allow the think reader to receive the facts accounting for many modern conflicts of duties of interaction between the states and peoples in East Europe.

The material opening a features Revival of the natural death will be interesting also to the students and teachers of humanitarian disciplines.

In the beginning of Unit № 25 the materials indicating activity of public academies in East Europe on improvement of professional skill, on preservation of Memory about the teachers and scientists are adduced, and also their scrambling for financing of scientific researches of the programs of training, which one is headed by(with) the scientific adviser of scientific advice Donetsk experimental scientific - methodical of center (new

IESCR), academician NAS of Ukraine N.G. Chumachenko. But the main contents of the Unit is the substantiation of fulfilment by Separation of economics NAS of Ukraine of a task of a managers of Presidium NAS of Ukraine (from 1997) and consideration on Presidium NAS of Ukraine of the report «Development of scientific directions of the Academic Mariupol's school» with emphasis of attention on the concept «PriAzov Region». Last specially is important, since will allow dynamically to develop to seaside cities to Mariupol and Berdyansk with accumbent regions (see. The Document № 75 on [WWW.CIC-WSC.ORG](http://WWW.CIC-WSC.ORG) ). As a whole this position finds support and in Presidium NAS of Ukraine (letter from 3.03.2005 for № 226), and for a deputy body (deputy's inquiry № 180). Especially it is all perspectively, since there are concrete calculations on a balanced tax system, both for Ukraine as a whole, and for Mariupol (senior lecturer MB IRAMS and PGTU Vasiljev V.A.), the part which one is adduced in the Report.

However, in Azov Department of AES&E perceive also role of progressively oriented public academic frames, specially, in conditions of reforming. Their scientific advice of Azov Department of AES&E aims actively to develop, therefore in 2005 is generated(set up) not only Odessa BRANCH of Azov Department of AES&E, but also Lvov BRANCH by name W.W. Leontjef of Azov Department of AES&E. The section of scientific advice of Azov Department of AES&E in Lvov, as well as REPRESENTATION was headed by the extremely talented and perspective scientist, adjunct - professor Oleg V. Ogirko. We enable the readers itself to evaluate his creative activity, by resulting a list (237 activities) publications since 1993. Just, on search of the candidatures in the members of scientific advice of Azov Department of AES&E such level of qualification the managers of AES&E on behalf of the President of AES&E, academician I.P. Faminsky sets up(adjusts) us (see matched list from 2.09.2002).
