

**To President of the Great World country, which leads in the economic and intellectual- spiritual development of World Wide - USA
To George Bush**

Dear Sir,

We are glad the possibility TO CONGRATULATE You with anniversary for your family and for all us date - Your 60ty years from the Birthday!

It is significant that in **2006** actually before your Your 60ty years from the Birthday Marquis "Who's Who" it published unique for THE USA and for entire World Wide REFERENCE BOOK "The Who's Who 60".

In the opinion during December 2005 to this unique publication we emphasized that it is today difficult to find more interesting, briefer and in also the time more capacious publication on the history not only OF THE USA, but also our entire contemporary Civilization.

But the main thing is the fact that this publication seemingly fixes the intellectual- spiritual leadership in the contemporary World Wide of the people OF THE USA, which became obvious for the people on the Earth after the events on 11 September, 2001.

But indeed this fixation of the achievements OF HUMANITY of may and not to occur, if not appeared courage and present political WISDOM of the President OF THE USA, who did not frighten and was not lost, but it urgently organized whole series of international encounters and consultations with the leaders of states and the intellectual elite of World Wide.

World Wide instead of the degradation planned by kanibalami made an enormous jerk forward - to the generally planetary SOLIDARITY. And this in spite of all terrorist acts and the present war of World and Democracy against the terrorism, for the victory in which sincerely We all pray GOD !

One that in Tbilisi (Georgia) appeared the street, which bears Your name (Bush), its speaks about the beginning of real victories in the consciousness of people of East Europe the forces of Democracy.

In 2003 (congratulating You with the New 2003 Year) we wrote that "than more deeply we try to understand laws governing formation and development of World System, those more it strikes the harmony of its construction. Us does not leave the sensation of the deep thorough consideration of the entire architecture of contemporary World Wide. Everything thus is organized, that at the successes of the World Leader soundly must be glad all honest inhabitants of the Earth."

But if it was into 2004 such people in East Europe, putting it mildly, it is very small (several ones), then today into 2006 already took place the lectures of the Deputy foreign Minister of the Government of the Ukraine Anton Buteyko for the students at the Odessa national university by name I.I. Mechnikova, on which the young people heard the TRUTH about the European Union and the North Atlantic Alliance (NATO), which to them the former ambassador of the Ukraine to THE USA said. Despite the fact that after these appearances through several weeks Anton Buteyko with the extensive infarction it arrived in hospital "Feofania" (Kiev) - the enlightenment of Ukrainian young people not to stop. Young people increasingly more share European values.

And after all these successes of democracy stands enormous work - the strenuous Labor - the forces of the peace, Governments and Presidents of the industrially developed countries, an example to which You will give, Mr. President, by all the acknowledged intellectual- spiritual leader of contemporary World Wide. Each Your appearance finds response in the hearts of Americans, and consequently also in the hearts of all honest people of planet the Earth. Actually Intellectual- Spiritual Labor will not destroy in the progressively developing civilization as and the Labor Of the spiritually developed Persons Of Gornego (Thin) World-Universum.

To us by all it is known from the Bible, as serious worked God, creating our World. And the realization of the creative intention of God today continue to achieveall honest toilers on the Earth, who with the hope look for THE USA and at the Vatican, at the President OF THE USA and at Benedict 16.

Peace left in 2001-2006 to the new level, when economic increase and development is already impossible without the intellectual- spiritual increase (see Documents 228, 186,147, 187, 66, 65,55,54, 43, etc. on the Web-Page www.cic-wsc.org).

If in the 60's for stimulating the innovation solutions in the region of economic thought was founded the reward to Alfred Nobel's memories in the economy, then in 2004 our Civil International Committee tried to focus attention of the intellectuals of World Wide to the spiritual development, to the need for the critical operation in this direction. However, in these three years we understood that in contrast to scientists it is intellectual - spiritual leaders can clearly discredit (or they force themselves to discredit them) themselves. Of four our nominantov in 2004 to give out diplomas "Intellectual- spiritual leader of World" we today can only to two people, such as Oecumenical Patriarch Varfolomey.

Certainly, Oecumenical Patriarch Varfolomey deserved the deepest appreciation of the Christians of East Europe. He gave glasnost the documents, which testify about the illegality of the reunification of Kiev Mitropolii with the Moscow Patriarchy in 1686. Therefore, he is the actually real intellectual - spiritual leader of World Wide. But in the search both for the candidatures and with their consideration it wants so that would participate not only civil international organization, but also leading universities. Probably, very process of examining the worthy candidatures must become the chain of the actions, which force people to again and again turn to its Conscience. We must so organize everything, as this is succeeded in making to You in Your appearances, which strengthen love for America in the hearts of the majority of the inhabitants of planet the Earth.

You be Healthy and Happy Mr. President !

We sincerely desire health and prosperity to Your family and to entire dear to you American people !
God to bless America!
Sincerely Yours
