

The University of Zaragoza (Spain) gives support to the storage of files and documents of the CIC.

My Dear Friend Dr Ernesto,

I am very GLAD for US. It is very important the computer support ! This is symbolic, which us supports the University Of Zaragoza.

Dr Valery requests to transmit the deep gratitude all to leaders-chief and to the colleagues of University, who help You and our Committee.

I want to say two words about the trip to L'vov (I earlier wrote that it went through the Vinogradovs -Sevlush). From 8 it is hour the morning to 13 in I had free time and walked on the Christian Temples. I visited six Temples and in all temples Bishop called to love to people of each other, to love neighbor. And to me it was very pleasant that all these Temples were Catholic and Greco-Catholic. It was possible to visit service and in the Armenian church (since 1333 it works). There service completely the same as in the Dominican Cathedral. To me it is not understandable - why they add Armenian church to the orthodoxy (?!). I purchased 7 portraits of Benedict XVI and his Medals, which tomorrow I will try to bless in the Catholic Cathedral of Hust for Dr Valery. For me even it was possible to purchase two books in the Polish language on the book market. One I will send to Poland to Aleksandr Sheptitskiy and et al. - about Atlantis, I hope, it will be necessary by us for the preparation of report to the Forum -2006. Happiness to work on our COMMON CAUSE (WORK)! I "hope Dr Valery will be well of in his Heart with the new treatment in the future" TOO.

Sincerely
All Yours
Alexander Vasiljev
From Hust

Dear Friend Alexander:

I glad because we have big possibilities to store documents in the Web. The University of Zaragoza has given us computer support (very big warehouse of files: more of 2 gigabites. I hope Dr Valery will be well of in his Heart with the new treatment in the future.

All Sincerely Your
Ernesto Garcia
