American Biographical Institute  
J.M.Evans  
President

Dear Sir,

We are very pleasure to You for Your Proposals to Dr Valery Vasiljev. It is very Honour will be The Presidential Seal of Honor 2004 . We very high value Your words: "The Board has spent a great deal of time reviewing details and credentials of thousands of candidates to receive an exciting new accolade, The Presidential Seal of Honor 2004. From these potential honorees, only a handfull have passed through the rigorous screening process. Dr. Vasiljev, you are one of the selected few whose biographical profile has been submitted to me personally for my executive approval. I am delighted to confirm and authorize your nomination. You have known our financial situation now. But we seek ways and we want to send the Letter to Ukrainian rich Men and Russian rich Men. We received answer from Chief of Donetsk Region (no money). We were writing about our obligation to send Certificates to Donetsk's museum but no money for science and culture. May be we find money when we written to Rich Men of Ukraine. May be ... We are sincere glad to successes of a world(global) economic system, which one could go through shocks of September 11, 2001 and which one prolongs today progressive development. From the report " a World(global) economic situation and perspectives for 2004 ", which one is submitted(shown) by Department on economic and social problems of the United Nations, Conference of the United Nations on trade and development and regional economic commissions of the United Nations, that an economic situation in many countries of a world, in which one in the second half-year of 2003 the tags of resuscitation were scheduled, in 2004 keeps to be improved(meliorated). And we completely agree with Jose Antonio Ocampo, that the today's recovery of economics still depends on the low interest rates and tax measures, challenging growth(increase). And we also consider(count), " that the policies should exhibit caution in a problem of waiving of these challenging measures to not damage to process of resuscitation of economics ". However, in opinion of the writers of the report, the rates of world(global) economic growth(increase) in 2004 should compound 3,5 %. But it seems, that this digit can be much higher due to Your large creative activity, which one You have conducted in 2003. Due to You today many political figures and the chiefs of countries of Europe, Asia and America can learn(find out) about the Law of PRESERVATION of a LABOUR and about capabilities of its application. As display researches if to start with the Law of PRESERVATION of a LABOUR and to use tax privileges to branches and firms, for which one the profitability of a labour does not exceed 10-12 %, it will create a capability to supply(ensure) growth(increase) of world(global) economics follow-up on 1-1,5 %.

We will be very pleasure to You if You support the activity of Civil International Committee (We want to meet with Ambassador of USA in Ukraine, Mr. John Herbst; The Requests from 16.09.03 and two yet), Dr Ernesto Garcia, First Vice-Chairman Civil International Committee (Web-page: [www.CIC-WSC.org](http://www.CIC-WSC.org) ) and Lucis Trust (ONG integrated in Social the Council and of the United Nations; Its Works are very High Level! We have read its Reports 1999, 2000, 2002, 2002, 2003. They are very interesting for us !!).  
E-mail: [committee@cic-wsc.org](mailto:committee@cic-wsc.org) and E-mail: [vasiljev@cic-wsc.org](mailto:vasiljev@cic-wsc.org) .

With sincere and steep respect,  
Always Yours  
Valery & Alexander  
Vasiljev  
TANAIS Reg.

Recommendations from Civil International Committee (CIC) and Azov Department of Academy Economical Sciences and Entrepreneurship (AD of AES&E) and Institute of Economical and Socio-Cultural Researchers (IESCR) // 122 Nahimova St., Flat 24, Mariupol, Donetsk reg., Ukraine, 87534 and E-mail: [committee@cic-wsc.org](mailto:committee@cic-wsc.org) and [vasiljev@cic-wsc.org](mailto:vasiljev@cic-wsc.org) .

1. Kazachkov Evgeniush Alexandrovich, doctor of engineering science, professor 7, Universitetskaya St., 87534 Mariupol, Donetsk reg., Ukraine  
He is the manager by stand of the theory of metallurgical processes PriAzov's of state technical University. He publishes 365 activities. The experience of scientific and pedagogical activity 54 years.  
For all of us Kazachkov Evgeniush Alexandrovich of the present Great scientist. I was lucky(carried) to listen to his lectures. And I for ever had steep respect for this present teacher. Simply I do not know, why did not actuate his candidature in a list recommended from our public organizations earlier. Always largest values we as do not remark, and you see Evgeniush Alexandrovich is really most authoritative present scientist in metallurgy PriAzov. His deeply knows the subject, likes the students and returns all forces to science and

youth. He is brightest representative " of the Moscow landing "  
prolongs to prepare staffs for independent Ukraine and today.

2. Gulakov Serge Vladimirovich, doctor of engineering science, professor  
7, Universitetskaya St., 87534 Mariupol, Donetsk reg., Ukraine

He is the doyen of PriAzov's state technical university.

He has published 198 activities. He has the copyright certificates and  
Patents in America, Russia and Europe. Now them is included 97. The  
experience of activity 33 years.

Very fissile and interesting scientist. Many interesting minings  
executed(made) on stand of welding of PriAzo's state technical  
university are connected to his(its) name. He actively worked with the  
professor Leshinsky, which one has leaved in USA. And we hope, that the  
professor aeshinsky prolongs many researches, which one started  
together with the professor Gulakov.

The professors S.V. Gulakov has touched "zgezelenkovshina". At once  
after protection of a doctoral thesis S.V.Gulakov offered to organize  
at PriAzov's state technical university Institute, which one would  
begin to develop the scientific directions which have been set up in  
his(its) doctoral thesis. But all has appeared is too  
difficult(complex) (not clearly why). And now S.V.Gulakov is absorbed  
by educational process. However we know his scientific potential and  
are sure, that at rendering of moral support the professor S.V.Gulakov  
much will make in engineering science.

3. Grankin Victor Pavlovich, doctor of physical and mathematical  
sciences, professor  
7, Universitetskaya St., 87534 Mariupol, Donetsk reg., Ukraine

He is the manager by stand the schedules(charts) of PriAzo's state  
technical University. He has published 184 scientific activities. He is  
the writer of seven copyright certificates. He has 28 years of the  
scientific experience of activity.

We know this capable scientific, as schoolboy of the professor Styrov,  
which one you already have included in the prestigious issuing. The  
professor Styrov is included and in issuings the American Biographic  
Institute. The American Biographic Institute has elected the professor  
Styrov " by the Person of 2003 ". But not everyone know, that the  
professor Styrov is the talented and careful teacher. The professor  
Grankin a smog to be held as the scientist only due to the professor  
Styrov, which one all years of activity in PriAzov's state technical  
university actively struggled with "zgezelenkovshina" and defended  
science and schoolboys.

We sincerely regret, that the professor Grankin now very much impressed  
on a graphics and less to time gives of physics. However, we hope, that  
at moral support of the professor Grankin, as scientist physics, he can  
make many interesting discoveries in composite and interesting area of  
scientific search - in a solid state physics.

4. Prof. Richard Michael Gramly, PhD  
Buffalo Sociaty of Natural Sciences, N.Y. USA

Prof. Richard Michael Gramly presented me his monograph The Vail Site:  
A Palaeo-Indian Encampment in Maine (Bulletin of the Buffalo Society  
of Natural Sciences, Volume 30, Buffalo, New York, 1982) when I was in  
Buffalo in 1986. His Monograph dedicated To people of the north  
country and To my family . It is Right ! It is very good book. I think  
that at moral support of the professor Richard Michael Gramly need the  
Science of USA.

Valery Vasiljev, Chairman of Civil International Committee (óIC),  
Membership of Research Board of Advisors, ABI, academician of the New  
York Academy of Sciences, member of Company of 1817 "Heritage" of the  
New York Academy of Sciences, Membership of International Biographical  
Association of BC Cambridge, Recipient of Nominal Medal as Author of  
the Law of PRESERVATION of a LABOUR and nominant of "2000 Outstanding  
Intellectuals 21 centuries ", IBC of Cambridge, doctor of commerce  
Alexander Vasiljev, Vice-chairman of Civil International Committee,  
Membership of Research Board of Advisors, ABI, vice-chairman of Azov  
Department of AES&E, Chairman of Science Council of Institute of  
Economic and Social and Cultural Researchers, academician of the New  
York Academy of sciences, member of Company of 1817 "Heritage" of the  
New York Academy of Sciences, doctor of economic sciences

P.S.

J.M.Evans

Dear Sir,

Let me with all my heart TO CONGRATULATE You on successful development  
of an our CIVILIZATION. You for this purpose do so much, that only in  
one decades all activity spent by American Biographical Institute will  
be possible to appreciate.

We were sincerely glad, when have learned about activity of the  
American robot "Spirit of Mars " on a red PLANET. It is huge Success of  
all scientific and honest people on the Earth. The mankind can not  
decide any severe problem, if not will study and to master space. For  
me and for You it is apparent trues.

It is pleasant to me to realize, that a carrying on role of the People  
of USA in preservation of perspectives of intellectual(intelligent)  
GROWTH has understood and has published in the monograph " Substantive  
provisions and substantiation of the NEW APPROACH " in May -2001 in  
Warsaw (pp.96-98; 130-132; 158-179). In section 7.3 "In an advance-  
guard of intellectual(intelligent) GROWTH" (pp.130-132) wrote, that "  
having refused from possession by celestial space, we shall be  
compelled to refuse... From a moral survival of mankind.." and "...To  
us would like... A category of "possession"... To supplement by a  
category of "responsibility". "The responsibility for celestial space  
" are capable today to take America and Western Europe. It is actual  
chance for all of us.

I always believed that the progressive development of our CIVILIZATION  
will not be stopped. And certainly, I sincerely am proud of successes  
of the American people, which one find forces to overcome all  
consequences of destructive effect of a satanic host and stagnation on

the Earth. But no think, that there will be no considerable obstacles. They will be, also they give about itself to know each day. Therefore Kindly should know how itself to defend. In modern conditions this most important area of activity and it perceive in USA (Reference to a Nation of the President George Bush, January 20, 2003). I am sincerely asked, that the God has given You forces to keep Your Large Activity.

Always Yours  
Alexander Vasiljev  
TANAIS Reg.

**On the ORDER of DISTINCTION from 13th November 2003  
Ref:OD/INV**

**NICHOLAS S. LAW  
Director General**

Dear Sir,

For me a great honor to receive from International Biographic Center of Cambridge of the letter behind Your signature. Sorry, But my material status has not changed. Therefore I can not make that symbolical listing, which one is marked in the appendix to your letter. I very much would like to hope for positive changes in maintenance of the scientists in Ukraine, but all is very difficult(now complex)now and not for all scientifics positive changes become a reality. The civil International Committee prolongs preparation for formation of intelligently - spiritual elite of the active workers of motion for a spiritual unification. We together with the Azov Department of Academy of Economic sciences and enterprise activity have discussed the candidatures, which one we recommend to the experts of International Biographic Center in Cambridge for actuation in one of their prestigious issuings.

**THE FIRST CANDIDATURE**

**Mr Andrushko Volodymyr**, Ph.D., Associate Professor, Vice-rector Full Address Pekarska str., 50, Lviv, 79010, Ukraine Occupation Lecturer of Lviv National Academy of Veterinary Medicine named after S.Z.Gzhytskyj

Representing the candidature of the professor Andrushko Volodymyr, we outgo from three factors. At first, it is the qualified experts having maximum state certification of the doctor of sciences and who are carrying on teaching activity. Secondly, he actively acts on scientific conferences in Ukraine and uses the deserved respect of the colleagues. And third, he is recommended to us by ours by the colleague Oleg Ogirko, in decency and moral qualities which one we are sure and we trust his guidelines.

The professor Andrushko Volodymyr has made the following reports in the co-authorship per 2003:

Problems of formation of confessor of the person . /materials of International Conference " On a threshold of new era: actual models of derivation and health ", Kiev, 2003. - seconds 3-5.

" Spoilage - base of monogynopaedium and company ". /materials of an international scientific workshop on genetics " Unique genesial technologies and future of Ukraine " within the framework of an International Congress of Monogynopaedium " Company, Child, State ", May 16-18, 2003, Kiev, 2003. -

seconds 91-92.

" The God – basis (fundamentals) of formation of the person ". // Materials of философско-doctrinal Conference " Spiritually - moral health of the person and business ", Mariupol, 2003. -8 seconds.

The contribution of the Ukrainian Church to becoming the state ". // Materials of International scientific conference " the Ukrainian state: a history and prospects for the development ", Moscow - львов, 2003.- 12 seconds.

" A Role of religion in life of the person and company ". / " Science. Religion. Company ", 4, Donetsk, 2003. - 5 seconds.

" Christianity in after sovetsky time "./ Materials Second All Ukraine of Conference " Political, economic and psychologic measurements of transient company ", Sumy, 2003. - 4 seconds.

### THE SECOND CANDIDATURE

**Mr. Ivanov Vycheslav Mihajlovich**, professor, candidate of engineering science, doyen of mechanical engineering faculty of PriAzov State technical university, Full Address 87500, Mariupol, Donetsk reg., Ukraine, Universitetskaya 7, State University.

Academician of Academy engineering sciences of Ukraine, he has 87 scientific activities and three monographies. Was in Mishkolc university with delegacy from of PriAzov State technical university still then, when in Mishkolc there were only three faculties, and today already in a nem seven faculties. In 1993 per 250 years. Anniversaries of the Hungarian higher education is awarded with order for fruitful activity and cooperation between university of city Mishkolc and by PriAzov State technical university. The experience of scientific activity 35 years. We know V.I.Ivanov, as considerable person, which one even per the most composite days of an orgy "zgezelenko's" in PriAzov state technical university remained the honest teacher and considerable chief.

### THE THIRD CANDIDATURE

**Mr. Saenko Uriy Leonidovich, PhD.**

The doyen of vesper faculty of PriAzov State technical university. Full Address 87500, Mariupol, Donetsk reg., Ukraine, Universitetskaya 7, State University.

He was the chief of two post-graduate students, which one have defended candidate theses. He has 105 scientific activities and 8 monographies. He had to drive repeated protection of the doctoral thesis in Ukraine, proving the loyalty "zgezelenko's men". It not only humiliating occupation, but also absolutely not necessary by way of scientific growth(increase). Last is connected that the experts in a speciality Uriy Leonidovich in Ukraine no in that quantity, which one is necessary for the qualified scientific advice. Many tests should be maintained Uriy Leonidovich, but we hope, that the most composite times already in past and he can effectively work in science, resting on international support of the experts. The experience of scientific activity 19 years

You work on advance of science and culture in the World and I am proud of a capability to render to You assistance in this noble activity. We will be very pleasure to You if You support the activity of Civil International Committee (We want to meet with Ambassador of USA in Ukraine, **Mr. John Herbst**; The Request from 16.0903), **Dr Ernesto Garcia**, First Vice-Chairman Civil International Committee (Web-page: [www.CIC-WSC.org](http://www.CIC-WSC.org) ) and **Lucis Trust Foundation** (ONG integrated in Social the Council and of the United Nations). E-mail: [elgarcia23@airtel.net](mailto:elgarcia23@airtel.net) or [committee@cic-wsc.org](mailto:committee@cic-wsc.org)

With sincere and steep respect,

Always yours

**Valery Vasiljev**

**Chairman of Civil International Committee (CIC)**

**TANAIS Reg.**
