Dr ERNESTO GARCIA

to Vice-president of Civil International Committee
on preparation World public opinion to execution
the First World Congress of Spiritual Unify in New York

Dear Dr ERNESTO GARCIA,

The last event was convinced us in necessity to accept the essence of new qualitative decisions for maintenance the positive activity of Your and our work, as well as work of all our colleagues and friends.

We are sure, that You proud of huge work, which Nation of Spain executes for spiritual lightning Nations not only of Latin America, but also of whole American and European continents, beginning from XIY century. Actually today You continue this work in each letter to us.

That's why Managers of Azov Department of Academy of Economical Sciences and Entrepreneurship, Chiefs of Institute of Economical and Socio-cultural Researchers and Chairman of Civil COMMITTEE on preparation World public opinion to execution the FIRST WORLD CONGRESS of SPIRITUAL UNIFY in New York (shortly the COMMITTEE) have decided to consolidate First Chairman of Committee Dr ERNESTO GARCIA.

We hope that the second First Vice-Chairman for Ukraine&Russia will be but YOU are our First Vice-Chairman CIC.

We think this decision is completely justified.

Mr Nobel began to struggle for the future of Humanity after creation by him the terrible means of destruction. Academician Saharov has acted as an active supporter of changes in USSR after creation by him the nuclear bomb.

But just in 1968 Aurelio Pichchee, vice-president "Olivety" and the member of manual of "Fiat", invites 30 Persons of World for the participation in discussion the World's problems. On that meeting, in April 6-7 in 1967, the Rume Club , which is no-government organization and does not connected with political consignments, classes, existing ideologies IS CREATED. And the main thing - the members of Rume Club act in personal quality and do not present any groups or countries.

This is first precedent in modern CIVILIZATION, when the Persons of the World were united not for REGRETING the next SINNER (who has understood the huge harm, can be causing by his activity or discover), And Person, who created and worked for people in modern economy of Europe.

Today the Time and Necessity to confront from the accidents (by People) because the World require new initiatives in intellectual and spiritual sphere, which must headed by the people of science and most of Humanity Sphere of activity - medicine. We are sure, that Fate has acquainted us with You, Dr ERNESTO GARCIA.

The tragedy on September 11 2001 and all the shares, caused by these events, push up all of us to address to Persons of the World on the E-mail, using the edition " Who's Who in the World * 21 st ". INTERNET have acquainted us. And it is significant (!).

We are glad, that Biographical Centre of Cambridge University divides our high valuation of Your professional and moral qualities. But we emphasize, that all this are first of all Your Labour and Labour of your Nation. Their intellectual and spiritual labour do not destroy due You. Really You continue the Great history of intellectual and spiritual Spain's nobility.

We think, that You, as the representative of Great Nation of Spain, which has brought the light of Christianity in America, today really have the moral right to head this necessary Work for all in the World in Spain & America Latina.

Therefore we give You all real rights, which allow You reclining on authority of many scientists and spiritual advanced people. We shall aspire to support all Your decisions, all Your INITIATIVES and Shares.

In universities of Spain we direct the letters with request to render You the necessary assistance.

With sincere and deep respect,

Valery Vasiljev

Chairman
