Wife and TO THE RELATIVES of Mikhail YEVDOKIMOVA  
To inhabitants of village Verh-OBSKIY of Altai Kray (Region)

To citizens Of the Russian Federation

**LEGEND OF RUSSIA OF THE XXI CE NTURY: MEMORIES OF NATIONAL GOVERNOR And HOPE OF THE NATIONS OF THE COOPERATION OF THE INDEPENDENT STATES - MIKHAIL YEVDOKIMOVA**

In the Altai village Verh-Obksiy THE PEOPLE of Russia betrayed TO THE EARTH talented and most dear leader Mikhail Yevdokimova. His life was tragically broken on the second year of work by the Governor of Altai Kray the Russian Federation.

This TRAGEDY of such scale, that if the entire world declared mourning and lowered a little national flags in all capitals of the terrestrial Globe, then this it would be possible to estimate only as the beginning of our general REPENTANCE and RASKAIVANIYA. Indeed our CIVILIZATION it is inadmissibly rapid and absolutely bezal'ternativno it lost high(ly)-moral talented leader.

In the hearts of ninety nine percent (99,9%) of the population of the states of collaboration (CIS), and this and the Ukraine, and Russia, and Belarusiya, and Kazakhstan, and Georgia, and Uzbekistan, and Azerbaijan, and Takzhikistan, and Turkmenistan, and Armenia, something trembled and sorrowful was pressed, when the information agencies brought news about the loss of our general hope - Mikhail Yevdokimova. And this is not exaggeration, since people, properly, was worn out with suffering in the entire territory of the former USSR, observing the convulsions of immoral management, their wild methods of the retention of authority and fight with "inakomysliyem" (against-think).

This ancient earth as the Altai simply had to give hope for entire Eurasian SPACE, which is suffered with the consequences of the bezinitsiativnoy (out thinks) economy.

Ukrainians even to Christmas of the Christ's (in the literature of West Europe of them are called by Ghetto -Dakami) perfectly well knew that the soul was immortal and in the East it is not possible to carry out boundaries - God there dwells. Probably, and therefore for us in the Ukraine is so close was close the personality of Mikhail Yevdokimov from village of Verh-Obksiy of Altayskiy Kray (Region).

We were always mentally with Mikhail and when He went to the selections of the Governor of Altai Kray, and when altai's people gathered signatures for Him - they fought with the the custommade empichmentom of "meyestnykh legislators" (riot of "nazarchukovtsev" against the common sense), and when He has attained an improvement in the life for the people. And indeed He attained from 78 places on the standard of living of altai's people practically in one year they rose to 62. It is not necessary to be by prophet in order to foresee that renesans of morals and spirituality in Russia, which would head Mikhail Yevdokimov after election by President of the Russian Federation, and He would be select by Russians practically unanimously (!).

To him they would believe both in Georgia and in the Ukraine, and even in entire peace. Indeed actually He was the glubokonravstvennyy and believing person, and this those surrounding see well and feel. For Him was not necessary to force the hysteria of fear and uncertainty in order to attain attention in the international arena.

We all this understand well and realize the scales of our total loss, when the era of the realization of hopes is put aside for Russia for the indeterminate period.

It is sour, but Mikhail Yevdokimov was terrible to obscurantists even with the completely "local association" of deputies. As to Him they did not give to work (!), after forcing ten times to replace his vice-Governor. And does not today be important for the inhabitants of the Altai who will be in the chapter of Kray (Region).

Already nothing it will change in the Verh-Obksiy either with Ishutine or during Kozlov's lifetime nor with Shabaline as in Russia during Putin's lifetime and his successors. Sequential drop in the hard times for the entire generations.

We on the Earth do not have a right so to lose THE SALIENT PERSONALITIES, but if this allow, then for this we will PAY by the years of repent, surmounting criminal "obstructions" and ruin in "own heads" and in own souls.

But entire policy, when departs close person, is converted in nothing and it does not be desirable even to think about it. We very well understand to the wife of Mikhail Yevdokimov and his relatives, since We themselves on 24 July lost close person to Olga Wladimirovnu Wasilievu, name of whom our INSTITUTE today was named.

Therefore we request you to accept our most sincere and deepest condolences. Together with you we request GENTLEMEN to accept THE SOUL of prematurely deceased Mikhail.

With the sincere and deep sympathy, We wrote this letter immediately after tragedy and did not become acquainted with the information in the newspapers and in the Internet. It is surprising, but our mood and estimations coincided with the mood and the estimations of people of close ones to Mikhail Yevdokimov. But, probably, so must be the Cossack- Goths proyavlyut themselves as high(ly)-moral people at the first opportunity.

This all is considerably more serious than it seems We did not find in the newspapers of This all is considerably more serious than it seems. We did not find in the newspapers of information about Mikhail Yevdokimov's roots, but us does not leave sharp sensation, that Mikhail Yevdokimov is connected vitally with cossacks. Only today we everything learn, that the Altai was predominantly populated by the Cossack- Goths. They mastered this earth and there were they 355 thousand people in 1931. Actually entire Siberia was populated by the Cossack-Goths. Therefore to Germans and to the descendants of Germans it was better to live in Barnaul than even European USSR. Therefore our close relative Helen Eduardovna Gartung (from Kiev) very heat-recalls Barnaul and is proud of the books of the relatives of the writers, who remained in Barnaul.

Them German roots did not prevent in the Altai from opening their creative abilities. Very interestingly - in descendants (Goths) for the Altai it was prepared in the hands in 2004-2005 real power of the state. And we everything were to this witnesses. History sets up very interesting experiments it before our eyes and indicates to us the methods of effective administrative solutions.

Should we by all master historical lessons. Therefore not only it is necessary to name street in Barnaul the name of Mikhail Yevdokimov, but to do everything so that the future Presidents of the Russian Federation would begin their way only after they will visit Verh Obskiy of Smolenskiy's areal of the Altai Kray (Region). It would wish so that they would be connected with the blood bonds with Cossacks (Goths) - then, apparently, more rapidly arrives to Russia Europe.

# **Murder of Boris Nemtsov**

Press Statement  
John Kerry  
Secretary of State  
Washington, DC  
February 27, 2015

---

I am shocked and saddened to learn of the brutal murder of former Russian Deputy Prime Minister Boris Nemtsov in central Moscow. Boris Nemtsov committed his life to a more democratic, prosperous, open Russia, and to strong relationships between Russia and its neighbors and partners, including the United States. He served his country in many roles – in the federal government, in the parliament, as Governor of Nizhniy Novgorod, and as a political leader and activist. In every post, he sought to reform and open Russia, and to empower the Russian people to have a greater say in the life of their country. His absence will be deeply felt in Russia and around the world. The United States urges the Russian authorities to act expeditiously to investigate and bring to justice those responsible. Our thoughts are with the Russian people and with Mr. Nemtsov's family and friends as we mourn his loss.
