## AZOV DEPARTMENT OF ACADEMY OF ECONOMIC SCIENCES AND ENTREPRENEURSHIP

### The OPENED LETTER to the CANDIDATES In the PRESIDENTS And DEPUTIES SUPREME RADS of UKRAINE

The outcomes of economic activities of firms of Ukraine in 2003 and first half of 2004 testify, that the advanced growth(increase) of material component of a national wealth of firms results in growth(increase) of the gross internal product (runway).

The analysis post-crisis (1929-1933) and post-war (1945-1950.) recovery of a national economy in a number(series) of the states testifies to necessity of considerable capital investments in carrying on branches. By the main(basic) source of means (more than 80 %) was the own investments created by the depreciation charges and profit of firms (corporations).

After recovery of a national economy both achievement of a pre-crisis and pre-war level the intensity of a development of states of Europe and Northern America oscillated from 3 % up to 12% of growth(increase) of a runway with a simultaneous gain(increment) of a fixed capital and circulating assets at a level from 5 % up to 15 %.

So in Japan during 10 years of a runway annually increased on 12 %, and the annual gain(increment) of the main(basic) production assets made 15,7 %.

Naturally, that is successfully possible to eliminate consequences of system crisis only in the event that the conditions will be generated(set up), at which one Funds-owns all means generatrix from amortization(shock-absorption) and the profits will use on development and perfecting of production.

As the analysis of the main(basic) economic parameters(indexes) on industrially developed countries (more often taking by the economists of Eastern Europe for matching) - most effectively testifies the national economy in those countries develops, where there were minimum values of a parameter(index) of profitability of a Labour (attitude(relation) of the profit to a total of expenses on the wage and deductions in social funds).

P (profit)

$$PR \text{ lab.} = \frac{P}{F \text{ wage labour} + D \text{ social funds}}$$

Where: PR lab. - profitability of a living labour;

P - profit of firm, money is unified.;

F wage labour - wages fund, money is unified.;

D social f. - deduction in social funds, money is unified.

The main(basic) economic parameters(indexes) within intensive development of industrially developed countries are adduced below.

Coun-try	period (years)	Frame of the incomes of the state			A level of the taxation			Profitabilit y of a living labour
		Surtax	The profit tax	Indi-rect taxes	Surtax to the income in %	The profit tax to the profit	An indirect tax to a runway in %	
USA	1950	39,2	25,2	35,8	11,6	42,0	8,3	17,8
	1957	48,6	17,8	33,6	15,6	45,6	8,5	12,5
	1968	54,0	14,6	31,4	19,8	46,0	9,1	11,2
	1973	55,6	13,8	30,6	20,2	42,0	9,2	9,3
Eng-land	1950	34,9	16,6	48,5	13,9		15,8	18,5
	1957	35,4	16,3	48,3	13,3	29,0	13,6	17,9
	1968	41,9	14,2	44,9	18,8	19,2	15,6	22,8
	1973	45,6	14,6	39,8	19,7	15,3	13,6	35,0
Fran-	1950	39,8	13,8	46,4	15,6	28,9	15,4	7,9

cium	1957	41,9	10,7	47,4	16,6	34,5	16,8	7,7
	1968	51,1	6,8	47,1	21,8	27,8	15,9	7,5
	1973	52,1	9,9	38,0	19,0	35,9	12,3	10,1
Ger-many	1950	43,7	13,6	42,7	16,4	48,9	13,5	7,0
	1957	42,7	13,6	43,7	18,0	45,7	14,5	8,3
	1968	50,8	12,3	36,9	21,7	53,5	13,7	4,9

Therefore as soon as possible it is necessary to develop normative legislative base, which one would promote minimization of profitability of a living labour in Ukraine pursuant to the Law of PRESERVATION of a LABOUR.

Alexander Vasiljev

Dr of economic sciences, high scies empl., cand.techn.scies, Citizen of Ukraine,
