on preparation World public opinion to execution  
of First World Congress of Spiritual Unify in New York

To president and Nation USA  
to Secretary-general TO UNITED NATIONS  
The president of European Union to and members Evroparlamenta

Tragedy with dipping two «Twins» in New-York 11 September 2001 year made wise World which felt the advance of crisis' decades. And nobody after this tragedy cannot sense itself in the absolute safety of at the time development on the instability planet. That is why for many social organizations associated in The UNITED NATIONS 11 of September became the date of summing-up its positive international activity.

But than all we can give account prior to world public, all the more, what of capabilities ours all became more? Because with the appearance of World-wide cobweb became possible practically without fiscal consumptions to actualize exchange of data carriers between the spokesmans of countries and nations practically on all globe. And we one of the first in 2001 year took advantage of this capability. And valid for a period, except for directions ex post state of play in international economics, in ecology and in cognitively-educational activity which else concretely manages to carry out to those associations of intellectual persons already on international level? Offerings and Initiatives - here is that innovation commodity which wait from us. Monograph, analytical materials and even results of historical studies will interest the units of professionals, and here is Initiatives substantiated Offerings, can be sustained сотнями and the 1000s of people having access to Internet. It is name, on this we in our Civil international Committee Intellectual and Spiritual Unity the latest 15 years and aimed be centralized, aiming to find bastard campaigns to judgment socioeconomic, of ecologic and even technological challenges, as well as of the questions of betterment educational and scientific domains. It is end-use, such comprehensiveness of problems it is possible was to carry out only owing to the specialists of self broad profile which managed to attract to collaboration. This and professors cybernetics from Serbii Miroslawa Demisa, this and the professors of physics from Mariupol lecturing in US, Vladislawa Styrova, this and the professors of International Biographic Center in Cambridge Iuriya Belousova, this and the professors of Odessa National University by name I.I.MECHNIKOVA, of «Man 2005 Year» Us Biographic Institute Olega Andreevicha Turkish, this and professors Sorbonne from France Arcadia Zhukovski, this and the professors of Warsaw University of Michael Dobrochinskij (Poland), this and the professors of the-head of institution of East Europe (ICЭ) Viktora Idzio, this and Dr Ernesto Garcia (Spain, Saragosa), this of and the humanist of-intellectual person and Web-bosses Julio Atance (Spain) and many others not less certain scientists of and professionals. Result of did not cause itself to wait - 47 Offerings and Initiatives to us managed to present today on consideration to the professors of Ukrainian higher college and leading in the world colleges (!). Truth, this we made not right away - at the outset only selected 5, subsequently resolved else to add ante 23, and then resolved finally (so to us seem) to stop on figure 37, but began to behave offerings from the members of the scientist of the council of The academy of economic sciences and entrepreneurial activity in Ukraine and we nevertheless expanded our catalog ante 47 according to the judgment of the scientist of the council of The institute of Economical and Socio-cultural Researchers (cessionary Donetsk ESMC The academy of science of Ukraine). And already this conclusive catalog presented on reference and the expert advice of the academic community of leading colleges in Europe, Asia to and America, though at the beginning blueprinted to confine only countries of East Europe. But many Offerings have, is valid for a period, global character, yes and every Initiative and Recommendation have its history and with it fairly big numeral The internet of-users already became acquainted, having not expressed sharply critical opinions and objections. That is why and all 37 base Offerings and Initiatives the directorship of Civil international Committee Intellectual and Spiritual Unity in Saragose (Spain) calculated necessary to place on official Web-Page [www.cic-wsc.org](http://www.cic-wsc.org) Doc 737 <http://www.cic-wsc.org/document%2023%2007%202019.pdf>.

But what from all 47 Offerings and Initiatives are prioritized and on what of them is necessary to take notice of the directorship of countries with actually advanced economy, and taking into

account approach of date 11 of September, so this, primarily, President and The nation of the United states of America? By much will seem justifiable, to turn, primarily, attention on 34 Offering - concerning The community of Universal labor and its author, taking into account position and the conducts of Civil international Committee Intellectual and Spiritual Unity in Spain (<http://www.cic-wsc.org/ernestolbg%20novel%20price%20%202019.pdf> ). But that hollow and depletion which, according to the opinion of P.YA.CHAADAEVA, fabricate all adversarial our practices and think in subtle world (spiritual plan life), for the latest 5 years in East Europe exceeded all conceivable boundaries. We all are under duty to begin reconstructive cause and to exclude more destructions, that is why Initiatives and Offerings (it is tightly) close connected conservation and development SOUL-Sphere will for us prioritized.

Assessing, present-day crisis tendencies, as in economics and ecology, so in insight intoes world and legal domains, as well as taking into account accruing negative occurrences in the culture of the entire regions of Planet, to us want to distinguish (being founded, end-use, from inhouse subjective evaluations) TWO the most, according to the opinion of-finding opinion, NEED INITIATIVES:

Offering Fifth - to hike The Christian wave of protest versus Terrorism; And Offering Fourth - to rehabilitate in Mariupol (Old Kremnes) Monastery Sent George (of on the spot ancient monastery and built Kremnes - Adamakhi/«the battle place»).

These two Initiatives touch, first of all, of spiritual domain, though even come out on the concrete activity of people and spokesmans all Christian confesses. But so and should be, because having not made serious, of great moves in revival spiritual difficult to reckon on successes in economics, in the judgment of ecologic challenges and generally in cultural building.

Our THE FIRST (fifth as to account) Offering is connected with the name of outstanding son of Spain **IGNACIO ETCHEVARRIA** which despite all certain recommendations of spokesmans спецслужб dashed on aid to woman who was subjected to the attack of terrorists in London. It погиб, but owing to Christians Spain to and The chairman of Civil international Committee, to Dr. Ernesto Garcia (Saragosa, Spain) offering to appropriate the higher spiritual award of Civil international Committee and the Azov's Department of Academy ES&E postmortem **IGNACIO ETCHEVARRIA**, the name of this HERO never will be forgotten. And all that was carried out. And when prepared and dispatched in Spain CERTIFICATE that as-that without challenges appeared idea to account ACT OF BRAVERY **IGNACIO ETCHEVARRIA** the commencement of Christian Wave versus TERROR which without challenge will sustain on all continents, because terror's attacks to already so much people poison life which with scoundrels took weapon versus pacific people the honest people of Planet ready already to combat by all obtainable methods.

As in time felt Dr. Ernesto Garcia (Saragosa, Spain) the vein of Christian World and managed in heroic deed Great Spanischman **IGNACIO ETCHEVARRIA** see Wide World Christian tendency! And someone in East Europe aims to subject беспочвенной to criticism the activity of Publishers «Who's Who» (USA) of and Us Biographic Institute (ABI) which, with its party, already longstanding noticed and gave the most appreciation to the job of Dr. Ernesto Garcia.

signifies But what Christian Wave versus TERROR? In than concretely she must be manifested? On our view - and «cases», people must do not forget about Act of bravery **IGNACIO ETCHEVARRIA** devoting to it MEMORY concerts, displays, excursions, books etc, by i.e. all cultural potential of developed countries to do not give nobody to forget about requisite to conduct principled struggle with terror. And given our circuit is part this struggle in world information room. And we in our Civil international Committee Intellectual and Spiritual Unity sincerely we wish that is found many people on our small, such assailable, but sole for us to all Planet, the who of us will hear and for itself will make choice with whom it - with that who by all means and even for account its close aims to survive, or with that who, despite deadly hazard, combats terrorists and «great-criminal» all categories. Here is in than we see the essence of Christian Wave versus TERROR ...

SECOND (fourth as to account) Offering is connected with revival to pray in Monastery Sent George which had time to rehabilitate in 1886 yr. Holy Ignatius, Metropolitan Gothas and Kafy, but who very awhile operated (actually ante discharge in best world Sent Ignatius) having left about itself Memory in Hearts PriAzov's Greeks. Today monastery Sent George did not simply would emblemize our continuity of the intellectually-spiritual tradition of Christianity, but principal - would show by actual the continuation of the revival of spiritual Christian traditions in Ukraine after gift Ukraine from Vselenskogo Patriarkhata TOMASA on awtokefalia. Correctly indicated The president of Ukraine which gift TOMASA - this another act of the admission of the governmental independence of Ukraine (!). Through 332 year Ukraine rehabilitated condition, when its Church submitted directly Vselenskomu Patriarkhatu (without interim «Moscow» echelon). It is by the way, this very serious advance Moscow Patriarkhatu which so and was not for 400 years of its existence is affirmed Holy Synod in Constantinople. Though, as spoke The first vice president Nationally of Academy of science of Ukraine, the academician of NAS Ukraine Vladimir Pavlovich Gorbulin - «Russland created orthodoxly-criminal government», but its statutes Patriarkhata has no meanwhile trust-worthy legal

benchmark (was not as to this question of judgment Holy Synod in Constantinople for all last centuries).

And if in recent years of its sojourn on soil Metropolitan Gothas and Kafy, Holy Ignatius considered it to rehabilitate pray in George's monastery that can be itself on presented what positive impulse will receive Ukraine and its nation with commencement pray in George's monastery already in 20 years of XXI st. Because with this monastery is connected, apparent, all history Christianization Asia and makings World-wide Nomanno-Mongol Empire which by tradable investments from China urbanization Europe having given strong excitation for its industrial development. And this impulse World feels and today. Not all for nothing of century operated travel commercial-postal artery Great Silk Way, when from Baikal ante Lutsk was not none «block-Post» (of border-line barrier) and commodities custom-freely went from Asia in Europe and from Europe in Asia, and preemptively the Norman's citizens of farms (stanic) state Kalmius (CALMOUCS) had time to provide trouble-free job these «Euro ban XXI st.» (for two and a half mnth messenger from Baikal came ante Vien). Without European ethnic basis from Norman's Cossack's farms (stanic) on all range «Great Silk Way» would not can by centuries to run of this «arterial road» XIII century. As see, recovery pray in George monastery lets to realize to us and all Asia organic communication with all history of Europe, with its industrial revolutions (as see, the first industrial revolution, urbanization Europe, was carried out in XIII century - long before invention locomotive and lathe). It is name, that is why President the-chairman of the Azov's Department of Academy ES&E and the first Chairman of Civil international Committee Intellectual and Spiritual Unity, the member of International Biographic Board in Cambridge and academician New York Academy of Science, the academician of The academy of the economic sciences of Ukraine and the author of The law of The preservation of Labor, Dr com., cand.econ.scies, h.scis.empl. Valery Alexandrovich Vasiljev so persistently struggled for the recoveries of George monastery in Mariupol. And Him managed to turn on this attention of governmental compositions in Ukraine (Gov.Committee N 6-100/21.B-7/1 14/01/2005).

Yes and as otherwise could behave academician Valery Vasiljev “cross father” protoiereja Vasiliya Konstantinovicha Mulykha saving of at the time Second World War “body” Holy Ignatius, 24 Metropolitan Gothas and Kafy, Retaining place Prestola (tron) Vselenskogo Patriarkha in the Crimea? It sensed actual communication of spiritual and civil Act of bravery Holy Ignatius and arduous struggle Cossacks of Confederation KALMIUS (CALMOUCS) with all positive causes unwrapped at the beginning XXI centuries in East Europe and in all World. This communication of Act of bravery Holy Ignatius with all heroic acts in XXI century felt and Dr Ernesto Garcia initiating award Name medal «Sent Ignatius, Metropolitan Gothas and Kafy» outstanding Spanischman IGNACIO ETCHEVARRIA.

These two INITIATIVES we and account priority from all 47 seven, with which offer all scientists and investigators to become acquainted.
