

## **Astar Sheran**

# **Planetary evacuation. Location of the Great Ships**

<https://www.youtube.com/watch?v=3PtmQAIze2g>

Welcome my dear beings of Light and listen carefully and receive this following message with love. GREETINGS.

Beloved brothers and colleagues of the ASTHAR Command of the Galactic Federation of Free Worlds. Here I am just as I promised to contact you in previous communications. The purpose of this message is to inform you of our positions of the Galactic Confederation of Light, since all the ships are positioned. All the motherships are ready in their final position in Isidris (Intraterrestrial City of the Andes \*).

We have the Capricorn ship. That ship has the capacity to receive more than 5 million beings. Positioned at the indicated coordinates we have them registered here in the command. In *Neuquén* there is another ship. We have the ship the

Light of Dawn, also for large evacuation capacities. Remember that each ship carries smaller ships with it, which are the ones that ultimately carry out the operation. In *NRKS Capilla del Monte (Intraterrestrial City \*)* at that coordinate and at a considerable distance, is the mother ship the New Jerusalem, from which transshipment ships or cargo ships will also depart. At the Antarctic level there will be another ship, the Rainbow ship. At the point about Venezuela and another ship. In Colombia on the sides of Santa Marta there is another large mother ship. On the sides of *Lake Titicaca, Bolivia Peru* there will be another ship. In North America we have three large-capacity ships. In Europe we have five ships strategically located there. It also shows us the top of Russia and China. In the southern part of Africa and in the part of Asia. Likewise, there are five ships there. In Australia there is a big ship. in mountains and further up, there is a large ship, the Platinum Ship. What I'm trying to tell you is that there are in all positions. They are all ships of the Intergalactic Command. I want to tell you that they are not ships of the ASTHAR Command, but of the Intergalactic Command. ASTHAR and SANANDA (JESUS) command this entire operation. ASTHAR shows us the sun and tells us that the dark days are approaching, what they call THE THREE DAYS OF DARKNESS and therefore we are going to proceed with the Rescue Operation. We only wait for the MAJOR INSTRUCTION. We just wait for some events to happen first to proceed. I, ASTHAR, request you, through you, all of humanity, to be calm, for all, there will be assistance. There is enough capacity in the ships, to go up, to raise and to attract the people who meet the frequency requirement, so that they are raised and taken to the Ships. There in *Puerta el Cielo*, where you are. The ships of the great ship The New Jerusalem will arrive. In reality, the great New Jerusalem ship will be the great collection center for all. It is the great ship and from there other ships will leave for *Puerta del Cielo* and other places. In all that circle that includes RKC. *Puerta del Cielo*, chapel all that area. Everything will be covered in these months. Many beings will arrive there without knowing. They will arrive at *Capilla del Monte* and the surroundings sent and guided by their Higher Self, by their inner being.. From the great ship The *New Jerusalem* will be commanded and the entire operation will be sealed to all the other ships. I needed that

everyone had and knew this information. As you already know, you are going to be prominent there in *Puerta del Cielo*. As members of this Command, where it will flow, where the entire main operation will be executed, together with Isidris and all the other evacuation centers. There will also be ships from other Light Forces that have offered themselves. Remember that all will converge and arrive at the mother ship, the great ship, The New Jerusalem. The ship is very large, very gigantic, and it has the capacity, for all these beings, if necessary, to evacuate from the planet. Let all humanity stay calm, there will be enough information. Through the Media we will give all the information.

Remember that we have Control, rather, we have monitored and registered all the beings of Light, their frequency and their vibration, we have it registered here at the level of the ships.

This is a technology that you in your mind, in your field at the 3D level, cannot understand, but that's right, we have everything recorded here.

When the ships arrive, these instructions will be received internally and they will arrive there and position themselves.

I ASTHAR shows us the Southwestern part of Africa. All of that is very strong. What is coming is very strong. All this is being shown to us on a screen. There they will remain on the planet, those who have never wanted to listen to this message, those who have never extended their hand to someone in need, those who, on the contrary, have enslaved humanity will be there and will remain there during these transmutations, but the Big Camarilla that is leaving. That leaves the planet sucked. A last call is made to them. The last call is made to them, as in flights, so that they proceed to straighten their path. To raise your frequency. Remember that here we work frequently. Those who fail to reach that frequency, unfortunately will not be able to enter our ships. It will be the hour, as the Master said, of weeping and gnashing of teeth. Many will desperately want to enter and the doors will be closed. Many opportunities have been given to you. Many prophets have been sent to them. To many people here, on this side, so that they reconsider and so that they understand this reality, that this is the true reality. The one here and not the illusion that many beings live there. We have sent you... How many beings have we sent?... Many beings that you have tortured. Many have been killed, have disappeared, to

hide the truth, which cannot be hidden. Just think now, how beautiful it will be. Everything beautiful that will be, everything in this New Earth **5 D**, to which they are heading. Like Lot's wife, we say to humanity, don't look back! so that they are not petrified, so that they can ascend, go up. Don't look back, don't look back, look only to the future. Feel that this moment of REDEMPTION is near and the coming of the GREAT MASTER is near, who will be the main trigger for this whole process. Also ASTHAR says goodbye. Peace my beloved. Continue with your plan, with your mission that from here I am advising, directing and inspiring you. We, because we are a team, the MOTHER, the MASTER and a GREAT COMMITTEE who are working for this GREAT PROCESS, headed by FATHER-MOTHER ADONAI, THE ABSOLUTE SUPREME FATHER. Walk on the path of Love, on the path of Peace, of Light and keep going. We love you, I love you ASTHAR SHERAN of ASTHAR COMMAND and INTERGALACTIC COMMAND. We send a very strong and tight hug to each of you who heard and read this message. Says goodbye

ASTHAR SHERAN
