Welcome my dear beings of Light. Listen carefully and receive with love this following message.

Greetings, my beloved brothers. I am Commander Asthar Sheran from the mother ship, The New Jerusalem, traveling through these beautiful skies of the entire American continent, from the Arctic to the Antarctic, radiating the force and power that this ship emits due to its vibration and its large size. . Vibration that is felt by all beings with an awakened heart, with an awakened conscience, who already know of our presence close to yours, my beloved.

There are times when we are so close... but so close that sometimes we think that the ship could materialize in its dimensional space-time.

We travel this Continent and especially these southern lands, to radiate the frequency of Light to those who long for and desire our meeting. Our contact.

This contact is closer than you think. This contact between the Worlds, as you think, will take place very soon.

This massive contact of our ships will become visible to the eyes, even the most incredulous, who will not be able to deny the existence of life in other parts of the universe.

The ships of the different commands. Ships of different shapes. Ships of different sizes and energies will open the skies and manifest. They may be recorded by all the media, although we have already had contact and our ships have been seen in many parts of the world. Contact that every time has become greater.

The coming contact, the massive one, will be as I have explained to you there. Individual contacts will be made with beings who are already emotionally and mentally prepared to come into contact with us. Those beings whose frequency can support our energy. Of course we have to lower our energy levels and you will have to raise yours, in order to achieve a meeting point. The frequency that is being radiated from the mother ship, The New Jerusalem, is to complete the frequency level of the planet and especially of this American continent.

On a non-physical level, there are many ships from all commands also acting, that if, at any moment, we decided to make ourselves visible, which will happen, they would be astonished to see so much majesty and so much light emanating from our ships.

Many will be activated from consciousness to consciousness; others will be activated by advanced technology; others a little more adapted to dimensions a little closer to yours. This is how this first mass contact will come into contact with you to announce the Event that will take place and it will not be something unsuspecting, as I told you, it will be something very planned.

But as you can understand, there will always be governments and institutions that want to attack us, however, everything is already coordinated so that all their weapons, of all types, are deactivated. The technologies, which you do not even imagine that many world governments have, you are going to be the ones who are going to set the tone for contact. We will announce it to you so that you can make it public and from this Sacred Mountain of the ships, they will enter and arrive.

Do you know what we are going to do? We are going to take the satellites and we ourselves are going to transmit those images of the ships. Many with their cell phones, with their cameras and others with their devices will be able to photograph us, take videos. Television will be able to broadcast, because it won't just be a flash or a blink. We will be there. We will be there long enough for everyone, absolutely everyone to see us and understand the immensity of the FATHER-MOTHER GOD, that life is not only on planet Earth. Life in human expression is not a single expression of form, but it exists in many places in this Universe and that in reality we all want to live as a Great Family, as a Great Family of Light, United by the love of the FATHER- MOTHER ADONAI, so that you understand that this first contact will be before the great events that are going to come to the planet are unleashed.

It is necessary to do it this way so that many already understand and open their understanding and open to receive the Love of the Stars, of their Star Brothers who love them with infinite love. In the love that unites us. The love of knowing that we are the very expression of FATHER MOTHER-GOD. We and you.

Peace, my beloved and until a next contact.

Blessings.

We send a very strong and tight hug to each one of you who listen and read this message

Says goodbye

ASTHAR SERAN
